

DR. ABHIJIT GIRAM

Consultant – Haematology Oncology

Qualification

MBBS | MD | DNB

Overview

Dr. Abhijit Giram is a dedicated and highly trained Consultant Haemato-Oncologist at Manipal Hospital Baner, bringing over 8 years of clinical experience in diagnosing and managing complex blood cancers and blood-related disorders. He completed his MBBS from GMC Miraj, followed by an MD in Internal Medicine from Dr. VM Government Medical College, Solapur. To further sharpen his expertise, he pursued a DNB in Haemato-Oncology from Deccan Sahyadri Superspeciality Hospital, a centre known for advanced training in oncology and bone marrow transplant care. Dr. Giram’s core area of expertise lies in the management of leukaemia, lymphoma, multiple myeloma, aplastic anaemia, bleeding disorders, clotting issues, and a wide spectrum of benign and malignant haematological conditions. He also specialises in Bone Marrow Transplant (BMT), including autologous and allogeneic transplants, and has played a key role in treating patients requiring advanced transplant-based therapies. His evidence-based approach, precision in diagnosis, and strong clinical judgement make him a trusted specialist for both routine and high-risk cases. At Manipal Hospital Baner, Dr. Giram is known for delivering personalised,

compassionate, and transparent care. He believes in explaining each step of treatment in simple, understandable terms, helping patients and families make confident decisions. His calm communication style, paired with his commitment to ethical practice, ensures that every patient feels supported throughout their treatment journey. Beyond his clinical responsibilities, Dr. Giram remains actively informed about the latest global advancements in haematology-oncology and transplant medicine. He is passionate about improving early diagnosis, patient awareness, and long-term survivorship in blood cancer care. With his strong academic background, hands-on experience in critical care haematology, and dedication to patient wellbeing, Dr. Abhijit Giram continues to be a valuable part of Manipal Hospital Baner, offering advanced and accessible haemato-oncology care to the community.
