

DR. TANMAY KULKARNI

Consultant - Interventional Cardiology

Qualification

MBBS | MD Medicine | DM - Cardiology

Overview

Dr Tanmay Kulkarni is a highly experienced consultant interventional cardiologist and TAVI expert at Manipal Hospital Baner, Pune, specialising in advanced cardiac and structural heart interventions. With over 8 years of experience in the field of cardiology, he is recognised for his expertise in minimally invasive heart procedures and patient-focused cardiac care. Dr. Kulkarni completed his MBBS from MIMER Medical College, Pune, followed by an MD in Medicine from NKPSIMS & Lata Mangeshkar Hospital, Nagpur. He further pursued DM Cardiology from the prestigious Amrita Institute of Medical Sciences, Kochi, where he received academic and clinical gold medals for excellence. To enhance his expertise in structural heart interventions, he completed an international fellowship in Structural Interventions and TAVI from Bezmialem Vakif University, Istanbul, Turkey. He is widely recognised as Pune’s first certified TAVI expert and has contributed significantly to the development of advanced structural heart programmes. Dr Kulkarni has participated in more than 500 TAVI planning cases using advanced 3mensio AI software and has independently performed over 200 TAVI procedures with excellent

outcomes. He has also successfully performed over 5000 coronary angiographies and 800 angioplasties. His areas of expertise include TAVI, MitraClip procedures, angiography, angioplasty, IVUS, OCT imaging, and complex coronary interventions. Dr Kulkarni is known for combining advanced technology with compassionate care to provide personalised treatment plans for patients with complex cardiac conditions. Dr. Kulkarni is highly regarded for his precision in performing minimally invasive cardiac procedures and his commitment to delivering evidence-based treatment. He believes in early diagnosis, preventive cardiology, and personalised patient care to achieve the best possible outcomes. His patient-friendly approach and expertise in advanced interventional techniques have made him a trusted name among patients seeking specialised heart care in Pune.
