

DR. SAGAR DAIV

Consultant - Plastic and Reconstructive Surgery

Qualification

MBBS | MS | MCH

Overview

Dr. Sagar Daiv is a consultant in plastic and reconstructive surgery at Manipal Hospital, Baner, Pune, with 13 years of experience since completing his MBBS. He specialises in cosmetic surgery and reconstructive microsurgery, providing consultations for patients seeking cosmetic enhancement and reconstructive surgical care. Dr. Daiv has completed his MBBS, MS, and MCh in plastic surgery. His medical education and training include Seth GS Medical College, MGM Medical College, Aurangabad, and Sri Ramachandra Medical College, Chennai. He has also completed a fellowship in cosmetic surgery through IAAPS, further enhancing his knowledge and expertise in the field. His areas of specialisation include cosmetic surgery and reconstructive microsurgery. Cosmetic surgery focuses on enhancing physical appearance, while reconstructive microsurgery involves specialised techniques to repair or restore tissues and structures affected by injuries, medical conditions, or surgical procedures. These treatments require careful evaluation, surgical precision, and an individualised approach to patient care. With experience in more than 500 cosmetic surgeries, Dr. Daiv brings practical surgical experience to

his clinical practice. His professional background also includes working as an associate consultant in the reconstructive microsurgery department at Rajiv Gandhi Cancer Institute and Research Centre, Delhi. He received a gold medal for his MCh in Plastic Surgery from Sri Ramachandra Institute of Higher Education and Research, recognising his academic achievement. Dr. Daiv speaks English, Hindi, Marathi, and Gujarati, enabling him to communicate with patients from diverse linguistic backgrounds. At Manipal Hospital, Baner, Pune, patients can consult Dr Sagar Daiv for expert evaluation and guidance regarding cosmetic and reconstructive surgery. His approach focuses on understanding individual concerns, explaining suitable treatment options, and helping patients make informed decisions about their surgical care.
