Qualification

MBBS | DGO | DNB | MNAMS | FMAS | FIAGE | FICMCH | FICOG | FICS (USA) | FARIS

Overview

Dr. Ammbalal Gurram is a highly experienced Senior Consultant in Gynecology and Laparoscopic Surgery at Manipal Hospitals in Baner, Pune. He is renowned for his exceptional surgical skills and expertise in minimally invasive gynaecological procedures. With over 22+ Years of clinical experience in obstetrics, gynaecology, and laparoscopic surgery, he has successfully performed more than 10,000 vaginal and laparoscopic surgeries. Dr. Gurram has also made significant contributions to the medical field by authoring eight international publications in indexed journals, further solidifying his reputation as Good Gynaecologist in Pune. Dr. Gurram holds an impressive array of qualifications. He completed his MBBS and DGO (Diploma in Gynecology and Obstetrics) from Dr. V. M. Medical College, Solapur, where he spent a total of 5.5 years on his undergraduate studies. He pursued further education, obtaining his DNB (Diplomate of National Board) from the National Board of Examinations, New Delhi, in 2005. He later earned the prestigious MNAMS (Member of the National Academy of Medical Sciences) in 2006, followed by a Fellowship in Minimal Access Surgery (FMAS) from the Galaxy Laparoscopy Institute,

Pune, in 2013. Additionally, Dr. Gurram has completed fellowships in Reproductive Medicine from Gujarat University, Advanced Gynecological Laparoscopic Surgery, and has been recognised with various fellowships including FICMCH (Indian College of Maternal and Child Health), FICOG (Indian College of Obstetrics and Gynecology), and FICS (International College of Surgeons, Chicago). Dr. Gurram's areas of expertise encompass advanced laparoscopic surgery, where he is proficient in a wide range of procedures, as well as high-risk obstetrics care. He has successfully managed complex cases, including multiple pregnancies, severe Pregnancy-Induced Hypertension (PIH), Diabetes Mellitus (DM) in pregnancy, bleeding in pregnancy, recurrent pregnancy loss (RPL), and ectopic pregnancy. His skills extend to vaginal surgery, where he specialises in performing vaginal hysterectomies (stitchless surgery) and can conduct these procedures up to 14 weeks gestation. Furthermore, he is adept in life-saving obstetric techniques, such as internal iliac ligation and obstetric hysterectomy, as well as advanced fertility treatments that help patients achieve successful pregnancies. Dr. Gurram has a strong focus on special interests in advanced laparoscopic surgery and minimally invasive gynaecology, where he strives to enhance patient recovery and outcomes through cutting-edge techniques. He is also dedicated to reproductive medicine, specifically in the field of Assisted Reproductive Technology (ART), providing advanced treatments to assist individuals and couples in achieving their family planning goals. With his extensive experience, qualifications, and commitment to patient care, Dr. Ammbalal Gurram continues to make a significant impact in the fields of obstetrics and gynaecology at Manipal Hospitals, Baner, Pune.
