

DR. SRIRANGA R

Consultant - Cardiology

Qualification

MBBS | MD (Internal Medicine) | DM (Cardiology)

Overview

Dr. Sriranga R is a renowned cardiologist in Malleshwaram, with over 12+ years of clinical experience in general medicine and cardiac care. He is currently practising as a Consultant - Cardiology at Manipal Hospital Malleshwaram, Bengaluru, bringing specialised training in internal medicine and cardiology. His clinical background includes evaluating and managing cardiovascular conditions, with experience in interventional cardiology and complex heart disease. His focused training and clinical experience make him a suitable choice for patients seeking the best cardiologist in Malleshwaram, Bangalore, for comprehensive cardiac care. Dr. Sriranga completed his MBBS from Bangalore Medical College and Research Institute, followed by an MD in Internal Medicine from the All India Institute of Medical Sciences. He subsequently pursued a DM in Cardiology from Sri Jayadeva Institute of Cardiovascular Sciences and Research, Bengaluru, gaining advanced specialist training in the diagnosis and management of cardiovascular disorders. His academic progression has provided him with a strong foundation in both general medicine and specialised cardiac care. His professional experience includes working as an Interventional

Cardiologist and contributing to academic medicine as an Assistant Professor in the Department of Cardiology at various institutions. Through his clinical and academic roles, Dr. Sriranga has gained experience in managing a broad range of cardiovascular conditions, including heart failure, atrial fibrillation, acute coronary syndrome, and dyslipidaemia. His expertise also includes assessing and managing patients with complex cardiovascular conditions requiring structured, specialised care. Dr. Sriranga has also been involved in clinical research across several areas of cardiovascular medicine. His research experience includes participation as a Sub-Investigator in clinical trials involving severe dyslipidaemia, heart failure, atrial fibrillation, and acute coronary syndrome. He has contributed to both global and national Phase III clinical research programmes, reflecting his involvement in evidence-based cardiovascular care and ongoing developments in the field. His professional interests are centred on cardiovascular medicine, heart disease, interventional cardiology, heart failure, arrhythmias, acute coronary syndromes, and management of cardiovascular risk factors. His involvement in clinical research and academic medicine further supports his commitment to keeping his practice aligned with evolving evidence and advances in cardiology. Dr. Sriranga communicates in Kannada, English, and Hindi, enabling him to interact comfortably with patients from diverse backgrounds. With specialised training in cardiology and experience across clinical, interventional, academic, and research settings, he provides comprehensive evaluation and management of cardiovascular conditions.
