

DR. VEERENDRA H S

Consultant - Urology

Qualification

MBBS | MS (General Surgery) | DNB (Urology)

Overview

Dr. Veerendra H. S. is a highly experienced urologist in Clinic Begur with extensive expertise in advanced endourology, renal transplantation, and robotic-assisted procedures. He is currently practising as a Consultant - Urology at Manipal Clinic Begur, Bangalore, bringing over 16+ years of specialised experience in managing a wide spectrum of urological conditions through both minimally invasive and complex surgical approaches. With qualifications including MBBS, MS in General Surgery, and DNB in Urology, Dr. Veerendra has developed a strong clinical and surgical foundation in urological care. Over the years, he has performed more than 8,500+ urological procedures, reflecting extensive hands-on expertise across routine and high-complexity interventions. His work spans tertiary care centres and academic institutions, where he has contributed both clinically and in teaching roles. Dr. Veerendra’s clinical practice focuses on the comprehensive management of kidney stone disease, benign prostatic hyperplasia (BPH), urological cancers, urinary incontinence, and male urological disorders. He routinely evaluates patients with urinary symptoms, renal conditions, and prostate-related concerns, offering

structured diagnostic pathways and tailored treatment planning. His consistent outcomes in these areas contribute to his recognition as one of the best urologists in Jayanagar for advanced and procedure-driven urology care. Dr. Veerendra has extensive expertise in endourological and laser-based procedures, including RIRS, PCNL and Mini-PCNL, ureteroscopy (URS), and laser lithotripsy for kidney and ureteric stones. He also performs advanced prostate procedures such as HOLEP, TURP, Rezum therapy, iTind, and UroLift, enabling effective management of prostate enlargement with minimally invasive techniques. In the domain of uro-oncology and minimally invasive surgery, Dr. Veerendra performs laparoscopic and robotic procedures, including laparoscopic donor nephrectomy, partial nephrectomy, radical nephrectomy, and robotic radical prostatectomy. Dr. Veerendra is also highly experienced in renal transplant urology, including pre-transplant evaluation, donor nephrectomy, and post-transplant care, ensuring continuity across all stages of transplant management. His work in reconstructive urology includes procedures such as urethroplasty, vesicovaginal fistula (VVF) repair, ureteric reimplantation, augmentation cystoplasty, and neobladder reconstruction, addressing both functional and structural urological conditions. He manages female urology and urinary incontinence, including procedures like TVT-O (Trans-Obturator Tape) for improved continence outcomes. Dr. Veerendra H. S. is an active member of professional bodies including the Urological Society of India (USI), Association of Surgeons of India (ASI), and Karnataka Urology Association, reflecting his continued engagement with evolving surgical practices.

Field of Expertise

- HOLEP (Holmium Laser Enucleation Of Prostate)
- RIRS
- PCNL | Supine PCNL | Miniperc | URSL

- Bipolar Turp
- Andrology
- Renal Transplantation
- Robotics Surgery
- Laproscopic Surgery
- Urooncology
- Urethroplasty
