

DR. VIKAS SHUKLA

Associate Consultant - Urology, Renal Transplant and Robotic Surgery

Qualification

MBBS | MS (General Surgery) | MCh (Urology)

Overview

Dr. Vikas Shukla is a dedicated and skilled Urology specialist with a strong foundation in general surgery. He completed his M.Ch. in Urology from Shri B M Patil Medical College, Vijayapura, Karnataka, after earning his master's in general surgery from Bharati Hospital and Research Centre, Pune. Dr. Shukla has built a robust clinical and surgical expertise through his senior residency at premier institutions, including three years at Shri B M Patil Medical College and prior roles at Bharati Hospital. His extensive training encompasses advanced endoscopy, laser lithotripsy, basic laparoscopy, and renal transplantation. He is proficient in paediatric urology, TRUS-guided and renal biopsies, percutaneous nephrostomy (PCN), basic andrology, and uro-oncology procedures. During residency, he also contributed to NABH and CBME elective modulation activities, underlining his commitment to quality medical education and hospital standards. Dr. Shukla has demonstrated academic excellence with numerous research publications, and he is actively engaged in advancing minimal access surgery techniques in urology. He is a registered member of the Delhi Medical Council and holds memberships with the Karnataka

Urological Association, the Association of Southern Urologists, and the Urological Society of India. With a patient-centred approach, Dr. Vikas Shukla provides expert urological care backed by meticulous surgical skills and a passion for continuous learning and research. Dr. Shukla combines his clinical expertise with excellent interpersonal and communication skills, ensuring that patients feel heard, respected, and well-informed throughout their treatment journey. He also ensures that his patients are making an informed medical decision, and to ensure this, he answers all their concerns and counsels them about the disease and treatment. His ability to make timely, sound decisions in complex clinical situations enhances patient outcomes and safety. Known for his empathetic approach, Dr. Shukla emphasises holistic and personalised care tailored to each patient’s unique needs, building trust and confidence.
