

DR. SANDEEP KUMAR MANDAL

Consultant - Nephrology

Qualification

MBBS | MD (Internal Medicine) | DNB (Nephrology)

Overview

Dr Sandeep Kumar Mandal is a highly experienced and respected Consultant in Nephrology in Gurugram, known for his extensive expertise in kidney health, patient-centric care, and evidence-based management of renal diseases. With decades of specialised practice in the field, Dr Mandal has established himself as a trusted nephrology specialist, helping patients navigate complex kidney conditions with compassion and precision. As a specialist in the diagnosis and treatment of kidney diseases, Dr Mandal manages a broad range of renal conditions, including acute and chronic kidney disease, renal failure, electrolyte disorders, hypertension related to kidney dysfunction, and complications of systemic illnesses affecting renal health. His practice encompasses comprehensive nephrology care, from clinical assessment and diagnostic work-ups to implementing personalised treatment plans tailored to each patient’s needs. Dr Mandal’s clinical expertise extends to advanced procedures such as hemodialysis, peritoneal dialysis, placement of temporary and tunnelled dialysis catheters, and kidney biopsies, which are integral to the care of patients with severe or complex renal conditions. His

approach combines meticulous attention to clinical detail with empathetic patient support, enabling better outcomes and improved quality of life. An active member of professional societies, including the Delhi Nephrology Society and the Indian Society of Nephrology, Dr Mandal stays engaged with ongoing developments in renal science and clinical best practices. He has received recognition for his academic contributions, notably the Best Paper Award at APICON 2002, and shares his expertise through talks and publications on topics such as polycystic kidney disease and innovations in kidney care. Fluent in both Hindi and English, he communicates clearly with his patients, ensuring they are well informed throughout their treatment journey. Patients value Dr Mandal for his thorough diagnostic approach, personalised care plans, and the supportive environment he fosters throughout treatment. His dedication to advancing kidney health, combined with genuine empathy, makes him a highly regarded nephrology consultant.
