

DR. DHEERAJ GUPTA

Director & HOD - Ophthalmology

Qualification

MBBS | MS (Ophthalmology) | Fellowship in Phacoemulsification | Observership in Medical Retina

Overview

Dr. Dheeraj Gupta is an exceptionally accomplished and highly respected cataract and refractive surgeon, currently serving as a Director and Head of Department in Ophthalmology in Manipal Hospitalks, Gurugram. Backed by thirty years of rich clinical and surgical experience, he began his academic journey at a prestigious institution of national importance. Following his initial medical education, he completed a specialized Master of Surgery in Ophthalmology at a prominent medical college and regional institute of ophthalmology. To further refine his surgical skills, he pursued a dedicated Fellowship in Phacoemulsification, alongside a specialized Observership in Medical Retina at a premier foundation. His stellar reputation as a pioneer in the field is highlighted by his past senior clinical associations with numerous elite hospitals across the region, as well as his international contributions as a visiting ophthalmic surgeon to the Republic of Congo in Africa. Throughout his distinguished career, Dr. Gupta has established himself as a leading authority in advanced microsurgical techniques, possessing over twenty-four years of highly focused experience in micro-incision cataract surgery and modern

refractive procedures. His extensive clinical expertise encompasses high-precision micro-incision cataract surgery and femtosecond laser cataract surgery, as well as pediatric cataract interventions. Patients frequently seek his exceptional proficiency in premium intraocular lens implantations, including EDOF, multifocal, and trifocal IOLs. Additionally, he has successfully performed hundreds of advanced refractive surgeries, such as Phakic IOL, ICL, femtosecond LASIK, Contoura Vision, and SMILE procedures to correct vision issues. His clinical acumen also extends to the medical management of complex retinal disorders, providing advanced care for diabetic retinopathy and age-related macular degeneration. Beyond his comprehensive clinical practice, Dr. Gupta is a highly sought-after academician and a regular teaching faculty member at premier national and regional forums. For over a decade, he has been invited as a guest speaker and panelist at prestigious annual conferences, including those of the Delhi, Haryana, and All Gujarat Ophthalmological Societies. He has also had the distinct honor of serving as a judge and panelist for scientific paper and poster presentations at the national conferences of the All India Ophthalmological Society. Dr. Gupta is an active member of numerous elite professional bodies, including the North Zone Ophthalmological Society, the Intraocular Implant and Refractive Society, and the Indian Medical Association. Fluent in Hindi, English, Gujarati, and Punjabi, he is widely recognized for his patient-centered approach, combining compassionate care with cutting-edge micro-incision techniques to restore sight and elevate the standard of modern ophthalmic care.
