

DR. ARAVINDA G M

Consultant - Internal Medicine

Qualification

MBBS | MD (General Medicine)

Overview

Dr. Aravinda G M is a well-known general physician in Bangalore, currently practicing as a Consultant - Internal Medicine at Manipal Hospital Jayanagar. With 20+ years of experience in treating various common and infectious diseases, Dr. Aravinda G M specializes in the management of diabetes, hypertension, asthma, persistent fever, typhoid, and other immunocompromised illnesses, offering efficient treatment and preventative measures to his patients. He is well-known among his peers and patients for thorough examinations, accurate diagnoses, and customised treatment plans that provide the best outcomes. With such a patient-centric approach and in-depth medical expertise, Dr. Aravinda G M is considered one of the best internists in Bangalore. Dr. Aravinda G M has a rich academic background, holding a Bachelor of Medicine, Bachelor of Surgery (M.B.B.S.) from University of Mysore in 1998, and a MD and DNB in General Medicine from the same university in 2001. He further specialized in the management of Hypertension and Diabetes – two pressing health concerns in India. This extensive educational background equipped him with comprehensive knowledge and expertise in the field of internal

medicine. In his current role as an Internal Medicine consultant at Manipal Hospital Jayanagar, Dr. Aravinda G M is actively involved in medical research, teaching, and keeps up with the most recent developments in medicine and his clinical obligations. Dr. Aravinda continuously volunteers to share his knowledge and thoughts through conferences and research journals, giving medical experts and the general public valuable information. He delivers lectures on various subjects relating to infectious illnesses, public health, and the management of critical circumstances. Dr. Aravinda G M is multilingual in English, Kannada, Hindi, and Malayalam. This ability to communicate in numerous languages assists him in connecting with patients from various regions in a manner that guarantees clear perception and productive medical care. His extensive clinical experience, academic achievements, and commitment to excellence make him an asset to the medical community.
