

DR. SUBHADEEP BANERJEE

Consultant Neurologist

Qualification

MBBS | MD (Internal Medicine) | DNB (Internal Medicine) | DM (Neurology)

Overview

Dr. Subhadeep Banerjee is a dedicated neurologist at Manipal Hospitals, Mukundapur, with over 7 years of experience in the field. He brings exceptional expertise to his neurology clinical practice. Dr. Banerjee's academic pursuit involves an MBBS degree from North Bengal Medical College & Hospital, Darjeeling, and an MD in Internal Medicine from Medical College, Kolkata. He further pursued a Diplomate of National Board (DNB) in Internal Medicine from the National Board of Education and a DM in Neurology from the Institute of Post Graduate Medical Education & Research, Kolkata. Dr. Banerjee addresses a wide range of neurological conditions and provides comprehensive neurological care to patients. His special areas of interest include stroke and degenerative disorders. He also treats Alzheimer's disease, amyotrophic lateral sclerosis, and more. He is proficient in designing personalised treatment plans to help patients regain their well-being. He is the top Neurologist in Mukundapur. Besides his clinical prowess, Dr. Banerjee actively participates in poster presentations at various national and international conferences, including the Indian Academy of Neurology Conference (IANCON) 2017,

the World Stroke Congress 2016, and the Association of Physicians of India Conference (APICON 2013). He is also the co-principal investigator in the ongoing “REOPEN” trial at the centre of the Institute of Neuroscience Kolkata (INK) under the INSTRUCT group. Dr. Banerjee employs a comprehensive approach that is a perfect amalgamation of advanced techniques and evidence-based treatment. Fluent in English, Hindi, and Bengali, he effectively communicates the treatment, fostering an environment of trust and comfort. Dr. Banerjee aims to provide high-quality neurology care, helping patients get relief and enjoy their normal lives as soon as possible.
