

DR. NAGARAJ A. R.

Consultant - Neurology

Qualification

MBBS | MD General Medicine | DM Neurology | Post-Doctoral Fellowship in Pediatric Neurology

Overview

Dr. Nagaraj A R is an experienced neurologist in Bangalore. He is highly skilled in paediatric and adult neurology and has over five years of dedicated experience in the field. He is currently practising as a Consultant - Neurology at Manipal Hospital Varthur Road, Bangalore, focusing on complex neurological conditions in adults and children. His dedication to neurology is evident through his patient-centred approach and commitment to managing a broad spectrum of neurological disorders. He is a Top Neurologist in Varthurroad. Dr. Nagaraj completed his medical degree (MBBS) at JJM Medical College, Davangere. He furthered his expertise by earning his MD in General Medicine from Karnataka Institute of Medical Sciences (KIMS), Hubli, followed by a DM in Neurology from Madras Medical College & Rajiv Gandhi Government General Hospital, Chennai. Additionally, Dr. Nagaraj holds a DNB in Neurology and a Post-Doctoral Fellowship in Pediatric Neurology from the esteemed National Institute of Mental Health and Neurosciences (NIMHANS), Bangalore. His academic qualifications and rigorous clinical training have equipped him with advanced skills in managing general and complex neurological

disorders. Dr. Nagaraj’s clinical expertise includes diagnostic and therapeutic management of neurological conditions such as epilepsy, neuromuscular disorders, neurogenetic conditions, pediatric stroke, movement disorders, and neurodevelopmental delays. He is adept at procedures like lumbar puncture, nerve conduction studies (NCS), electromyography (EMG), and electroencephalography (EEG), making him a trusted authority in neurological care. His comprehensive approach involves thorough patient assessments, understanding each patient's medical and developmental needs, and applying targeted treatments to improve quality of life. Dr. Nagaraj is also active in the academic and research domains. He has contributed to multiple case studies and publications in national and international journals, focusing on rare neurological conditions and advancements in pediatric neurology. His contributions include chapters in neurology textbooks and research articles covering pediatric neurogenetic disorders, stroke, and neurodevelopmental conditions, which have expanded clinical understanding in these areas. His scholarly work reflects his commitment to advancing knowledge and enhancing clinical practices in neurology. In addition to his clinical and academic work, Dr. Nagaraj actively participates in neurology conferences and workshops, contributing his insights on challenging neurological cases. His active membership in professional associations, including the Indian Medical Association, underscores his commitment to staying updated on the latest developments in neurology, ensuring his patients receive informed and up-to-date care. Dr. Nagaraj speaks both Kannada, English, and Telugu, effectively communicating with a broad patient base. His multilingual abilities contribute to his ability to provide compassionate and accessible care, supporting families and patients through complex treatment plans.

Fellowship & Membership

- Post-Doctoral Fellowship in Pediatric Neurology (NIMHANS)

Field of Expertise

- Lumbar Punctures
- Nerve Conduction Studies
- EEG
- Pediatric Neurology
- Genetic Neuro Disorders

Languages Spoken

- English
- Kannada
- Telugu

Awards & Achievements

- Multiple case reports in neurology, contributing author in Practical Neurology book, IAN Textbook of Neurology, and several publications in reputed journals.

Talks & Publications

- Publications on pediatric neuro disorders, genetic testing significance, and case reports.
