

DR. SWATEE GAGGARE

Consultant - Obstetrics & Gynaecology

Qualification

MBBS | MS (Obstetrics & Gynaecology) | DNB | FMAS | FRM | DRM (Germany)

Overview

Dr. Swatee Gaggare is one of the best gynaecologists and obstetricians with over 8 years of experience, recognised as one of the leading consultants at Manipal Hospitals, Baner, Pune. She holds an MBBS (2010) and an MS in Obstetrics and Gynaecology (2016) from the Pravara Institute of Medical Sciences, DU, as well as advanced qualifications, including a Diploma in National Board (DNB, 2020) and a Diploma in Reproductive Medicine (DRM, 2022) from Germany. Her professional development includes specialised training in Assisted Reproductive Technology (ART), gynaecological endoscopy, and high-risk obstetrics. She is the Best Gynecologist Obstetricians In Baner, Pune. Dr. Gaggare possesses extensive expertise in managing high-risk obstetric cases, including placenta previa, severe preeclampsia, and uterine rupture, and is proficient in performing complex obstetric surgeries such as caesarean sections, peripartum hysterectomies, and internal iliac ligations. In gynaecology, she is highly skilled in minimally invasive procedures, including total laparoscopic hysterectomies, ovarian cystectomies, hysteroscopies, and staging laparotomies. Her proficiency extends to postpartum care and advanced family planning

services, ensuring a comprehensive approach to women's healthcare. Throughout her career, Dr. Gaggare has demonstrated exceptional dedication to clinical excellence and academic contribution. Her research endeavours, including studies on oligohydramnios outcomes and acute uterine inversion, have added significant value to the field of obstetrics and gynaecology. Her ability to integrate evidence-based practices with advanced surgical techniques highlights her commitment to elevating standards of care. Dr. Gaggare is also passionate about adolescent health, with a strong focus on educating and providing care for conditions like menstrual irregularities, Polycystic Ovary Syndrome (PCOS), puberty education, and preventive measures such as HPV vaccination. She fosters a supportive environment for teenagers, emphasising early intervention and education to ensure long-term well-being. With a reputation for precision, innovation, and patient-centric care, Dr. Gaggare stands at the forefront of her field. Her expertise in handling complex cases and her unwavering focus on delivering optimal outcomes have established her as a trusted and highly respected professional in gynaecology and obstetrics.
