

DR. ASHISH CHUGH

Consultant - Neurosurgery

Qualification

MB | MS (General Surgery) | MCh | DNB

Overview

Dr. Ashish Chugh is one of the leading neurosurgeons in Pune, with over 25 years of experience at Manipal Hospital, Baner. His expertise covers a wide range of neurosurgical procedures, including brain and spine surgeries, neuro-oncology, cerebrovascular surgery, and minimally invasive neurosurgery. He is committed to providing patient-centric care, ensuring that each individual receives personalized treatment tailored to their specific neurological condition. Dr. Chugh specializes in brain and spine surgeries, minimally invasive neurosurgery, neuro-oncology, and complex spinal reconstructions. He is proficient in cutting-edge neurosurgical techniques, ensuring optimal outcomes for patients with brain tumours, spine disorders, and neurovascular conditions. His expertise extends to advanced microscopic and endoscopic procedures, enhancing precision and recovery in neurosurgical interventions. Recognized for his outstanding contributions to the field, Dr. Chugh has received several prestigious accolades, including the Sursari Dayal Gold Medal (2008) for Excellence in MCh Neurosurgery. He has also been honoured with the Certificate of Excellence by Lokmat (2019) and Navbharat (2020) for

his exceptional work. A pioneer in medical innovation, he holds design patents for a low-cost fluorescein device and bipolar forceps, further showcasing his dedication to advancing neurosurgical technology. In addition to his clinical practice, Dr. Chugh is an avid researcher and educator. He has published over 70 peer-reviewed papers and contributed to two textbook chapters, with more than 450 citations to his name. As a Key Opinion Leader (KOL) for Philips in Neurosurgery, he plays a crucial role in shaping the future of neurosurgical advancements. His unwavering dedication to research, innovation, and patient care solidifies his reputation as a leading neurosurgeon in Pune.
