

DR. SUHAS HARDAS

Senior - Cardiologist

Qualification

MBBS | MS/MD | M.Ch/DM/DNB

Overview

Dr. Suhas Hardas is one of the senior cardiologists in Pune, currently practising at Manipal Hospital, Baner, with over 39 years of dedicated experience in interventional cardiology. He is deeply committed to providing patient-centric care, ensuring that every individual receives personalized treatment tailored to their unique cardiac needs. His compassionate approach, combined with his extensive expertise, has helped thousands of patients manage and overcome complex heart conditions, improving their quality of life. Dr. Hardas has played a pivotal role in transforming cardiac care through advanced interventional procedures. He specializes in ASD closure, CRT implantation, absorption stent placement, and coronary angiography via the radial route. His expertise in radial rotablation has allowed many patients with severe coronary blockages to receive minimally invasive, life-saving treatments. His focus is not just on treating heart diseases but also on guiding patients toward better heart health through preventive measures and lifestyle modifications. Beyond his clinical expertise, Dr. Hardas is a dedicated researcher and mentor. He has contributed to over 31 medical publications in reputed journals,

including the Indian Heart Journal. His passion for education has led him to mentor and train aspiring cardiologists, ensuring that the future of heart care remains in skilled hands. His contributions have been recognized through multiple fellowships, including FSCAI and FICCA, and 17 prestigious awards in various national and international cardiac workshops. Patients trust Dr. Hardas for his unwavering dedication, patient-first approach, and ability to provide the best possible care with the latest advancements in cardiology. Whether treating a critical heart condition or offering preventive guidance, he remains a pillar of excellence in cardiac care, bringing hope and healing to every patient he serves.
