

DR. BHAVANA MANGAL

Consultant - Obstetrics and Gynecology

Qualification

MBBS | MD | DNB | CCT | FRCOG

Overview

Dr. Bhavana Mangal is a highly experienced Obstetrician and Gynaecologist with over 25 years of clinical expertise in women's healthcare. She brings a comprehensive and compassionate approach to patient care, with extensive experience in managing both routine and high-risk obstetric cases as well as a wide spectrum of gynaecological conditions. Having trained and practised in diverse healthcare settings, including the United Kingdom, Dr. [Your Name] is well-versed in evidence-based medicine and adheres to the highest international standards of clinical practice. Her areas of expertise include antenatal care, high-risk pregnancy management, minimally invasive gynaecological procedures, menopausal health, and preventive women's health. Dr. Bhavana Mangal is known for her patient-centric approach, clear communication, and dedication to empowering women through every stage of life. She is also passionate about teaching, mentoring junior doctors, and contributing to community health awareness initiatives. At Manipal Hospital, Baner, she aims to provide safe, ethical, and holistic care tailored to the individual needs of every patient.
