

DR. SURAJKUMAR LATHIYA

Consultant - Neurosurgery

Qualification

DrNB (Neurosurgery)

Overview

Dr. Suraj Lathiya is a Consultant Neurosurgeon at Manipal Hospitals Baner, Pune, with over 8 years of experience in the diagnosis and surgical management of complex disorders affecting the brain, spine, and nervous system. He has completed his DrNB in Neurosurgery from the National Board of Examinations, New Delhi, and has undergone specialised training in Skull Base and Vascular Neurosurgery, enabling him to manage highly complex neurosurgical conditions with precision and expertise. Dr. Lathiya specialises in the treatment of complex brain tumours, spinal tumours, cerebrovascular disorders, neurotrauma, degenerative spine diseases, and skull base lesions. He has a special interest in aneurysm surgery, vascular neurosurgery, minimally invasive neurosurgical procedures, and advanced spine surgery. His clinical exposure at SGPGI, Lucknow, one of India's premier neuroscience institutes, has further strengthened his expertise in managing aneurysms and other intricate neurovascular conditions. Before joining Manipal Hospital Baner, Dr. Lathiya served as a registrar in neurosurgery at Sahyadri Super Speciality Hospitals, Pune, where he was actively involved in complex brain and spine surgeries,

neurotrauma management, and emergency neurosurgical care. Throughout his career, he has gained extensive experience in handling challenging neurosurgical cases and delivering comprehensive treatment for patients with neurological disorders. Known for his patient-centric approach and commitment to clinical excellence, Dr. Lathiya believes in combining evidence-based medicine with advanced surgical techniques to deliver the best possible outcomes. He takes time to educate patients and their families about their condition and treatment options, ensuring informed decision-making throughout the care journey. At Manipal Hospital Baner, he is dedicated to providing compassionate, comprehensive, and technologically advanced neurosurgical care, helping patients achieve improved neurological health and a better quality of life.
