

DR. VISHESH DIKSHIT

Consultant - Paediatric Surgery

Qualification

MBBS | MS (General Surgery) | MCh (Paediatric Surgery)

Overview

Dr. Vishesh Dikshit is a highly skilled consultant paediatric surgeon at Manipal Hospitals, Baner, with 21 years of overall clinical experience in the diagnosis and surgical management of congenital and acquired conditions affecting newborns, infants, children, and adolescents. He is dedicated to delivering safe, evidence-based, and compassionate surgical care, ensuring the best possible outcomes for young patients and their families. Dr. Dikshit completed his MBBS from Government Medical College, Calicut, Kerala, followed by an MS in general surgery and an MCh in pediatric surgery from Lokmanya Tilak Municipal Medical College and General Hospital, Mumbai. His expertise spans pediatric surgery, neonatal surgery, pediatric urology, minimal access (laparoscopic) surgery, and robotic surgery. He has extensive experience in treating a wide range of pediatric surgical conditions, including congenital anomalies, gastrointestinal disorders, urological conditions, abdominal and thoracic disorders, and neonatal surgical emergencies. At Manipal Hospitals, Baner, Dr. Dikshit utilizes advanced minimally invasive and robotic surgical techniques whenever appropriate, helping children experience reduced pain, smaller

incisions, faster recovery, and shorter hospital stays. He works closely with a multidisciplinary team of pediatricians, neonatologists, anesthesiasts, intensivists, and other specialists to provide comprehensive, child-centered care for complex pediatric surgical conditions. Known for his compassionate approach and clear communication, Dr. Dikshit believes in involving parents and caregivers throughout the treatment journey, ensuring they are well-informed and confident about every stage of their child's care. He is committed to adopting the latest surgical advancements and evidence-based practices to deliver high-quality outcomes. Dr. Dikshit is a member of the Indian Association of Pediatric Surgeons and the Society of Fetal Medicine India. He is fluent in English, Hindi, Marathi, and Malayalam, enabling him to provide personalized care to patients from diverse linguistic and cultural backgrounds.

Fellowship & Membership

- Indian Association of Pediatric Surgeons, Society of Fetal Medicine India

Field of Expertise

- Pediatric Surgery
- Minimal Access Surgery
- Robotic Surgery
- Paediatric Urology
- Neonatal Surgery

Languages Spoken

- English
- Hindi

- Marathi
- Malayalam

Awards & Achievements

- First prize- Posterior urethral polyp in a case of posterior urethral valves.
- Poster presented at MCIAPSCON, Panchgani, 2014.
