

DR. PARAS R BORSE

Consultant - Neurology

Qualification

Fellowship in Movement Disorders | D.M. Neurology | M.D. Medicine | MBBS

Overview

Dr. Paras R. Borse is a highly skilled consultant neurologist at Manipal Hospitals, Baner, with 10 years of overall clinical experience in the diagnosis, treatment, and medical management of complex neurological disorders affecting adults. As a leading neurologist in Baner, Pune, he is dedicated to delivering safe, evidence-based, and compassionate neurological care, ensuring the best possible recovery outcomes for his patients and their families. Dr. Borse completed his MBBS from the prestigious Byramjee Jeejeebhoy Government Medical College (BJGMC), Pune, followed by an MD in General Medicine from Government Medical College and New Civil Hospital, Surat. Demonstrating academic excellence, he secured All India Rank 5 in the national entrance exam to pursue his DM in Neurology from the premier National Institute of Mental Health and Neuro-Sciences (NIMHANS), Bangalore. He further specialised by completing a dedicated Fellowship in Movement Disorders from Aster Medcity, Kochi. His clinical expertise spans general neurology, neuromuscular diseases, stroke management, neuro-immunology, and advanced movement disorders treatment. He has extensive experience in

treating a wide range of neurological conditions, including Parkinson's disease, dystonia, tremors, epilepsy, neuro-infections, and autoimmune encephalitis. At Manipal Hospital Baner, Dr. Borse utilises advanced therapies and state-of-the-art neuromodulation techniques. He specialises in providing life-changing relief for patients with complex movement disorders through clinical Deep Brain Stimulation (DBS) programming and therapeutic Botox injections for neurological conditions like spasticity, dystonia, and chronic migraines. He works closely with a multidisciplinary team of neurosurgeons, neuro-rehabilitation specialists, neuroradiologists, and critical care intensivists at our advanced neurology hospital in Baner to provide comprehensive, patient-centred care for complex brain, spine, and nerve disorders. Known for his compassionate clinical approach and clear communication, Dr. Borse believes in involving patients and their caregivers throughout the treatment journey, ensuring they are well-informed and confident about every stage of their neurological care plan. He is committed to adopting the latest medical advancements and evidence-based clinical practices to deliver high-quality outcomes. Dr. Borse is an active participant in academic and professional forums, having served as an expert guest speaker on advanced topics like autoimmune encephalitis and insomnia management. He is fluent in English, Hindi, Marathi, and Gujarati, enabling him to provide highly personalised care to patients from diverse linguistic and cultural backgrounds looking for the best brain specialist doctor in Baner.
