

## **DR. SAIPRASAD SAHOO**

Senior Consultant - Nephrology

### **Qualification**

MBBS | MD (General Medicine) | DNB (Nephrology)

### **Overview**

Dr. Saiprasad Sahoo is a senior consultant in nephrology practicing at Manipal Hospitals, Bhubaneswar, Odisha, with 24 years of extensive experience, including 12 years as a specialist in the field. A distinguished professional in the domain of Nephrology, Dr. Sahoo has a career spanning more than two decades. Dr. Sahoo began his journey with a Bachelor of Medicine and Bachelor of Surgery (MBBS) from Sambalpur University in 2000, followed by a post-graduation Doctor of Medicine (MD) in General Medicine from Sambalpur University in 2008. Dr. Sahoo further pursued a Diplomate of National Board (DNB) in Nephrology. Dr. Sahoo's remarkable proficiency, refined through years of dedicated practice, extends to his established expertise in Renal Transplantation, where he ensures meticulous attention to blood group compatibility and ABO Incompatible Renal Transplantation. Furthermore, he specialises in facilitating Vascular Access for Dialysis through Perm Catheterisation, providing comprehensive care to patients with renal conditions. Beyond Dr. Sahoo's clinical practice, he has also published an article titled "Superficial and Intermediate Cervical Plexus Block for Neck Dissection

in Patients' in a prominent journal. Dr. Saiprasad Sahoo's fluency in English, Hindi, and Odia not only enables effective communication but also fosters a sense of trust and understanding with a diverse patient population.
