

DR. MANAS RANJAN PRADHAN

Senior Consultant - Urology

Qualification

MBBS | MS (General Surgery) | MCh (Urology)

Overview

Dr. Manas Ranjan Pradhan is a renowned senior urologist in the Department of Urology at Manipal Hospitals, Bhubaneswar, Odisha, with a strong background of over 17 years of experience in the field. He completed his Bachelor of Medicine and Bachelor of Surgery (MBBS), followed by a Master Of Surgery (MS) at SCB Medical College, Cuttack. He later pursued a Magister of Chirurgiae (MCh) in Urology and Renal Transplantation from the Sanjay Gandhi Postgraduate Institute of Medical Sciences (SGPGI). His academic excellence has been awarded immensely, including receiving the Dr. K.N. Mishra Memorial Gold Medal for being a university topper in MS from Utkal University, Odisha, and the Dr. B. Devi Memorial Award for being a university and state topper in Physiology. Dr. Pradhan is a member of many distinguished organisations such as the Urological Society of India (USI), the Indian Society of Organ Transplantation (ISOT), and the Indian Medical Association (IMA). Widely regarded as the best urologist in Bhubaneswar, he also serves in the governing council for the Renal Transplant section at USI, underscoring his leadership abilities. Dr. Pradhan's commitment to advancing the field of Urology is evidenced

by his active participation in numerous national and international conferences and seminars as a distinguished speaker. He generously shares his wealth of expertise and experience with fellow experts and aspiring medical professionals, regarding him as a brilliant academician. Dr. Pradhan's acumen and unwavering dedication to urological care have firmly established him as a notable physician in Urology.

Fellowship & Membership

- Member of the Urological Society of India (USI)
- Member of the Indian Society of Organ Transplantation (ISOT)
- Member of the Indian Medical Association (IMA)

Field of Expertise

- Demonstrates comprehensive knowledge and proficiency in Kidney Transplant Techniques, including for paediatric patients, facilitating the transfer of healthy kidneys from donors to recipients suffering from end-stage renal illness.
- Utilises advanced Laparoscopic Techniques for Urological Treatments, resulting in less invasive procedures with shorter recovery periods and reduced post-surgery discomfort.
- Specialises in diagnosing and treating cancers of early, advanced, and recurrent stages of the male reproductive system and urinary tract, utilising cutting-edge techniques with a focus on minimal complications.
- Possesses expertise in Endourology, employing Minimally Invasive Techniques for managing kidney stones and urinary tract diseases.
