

DR. PRITISMITA KHUNTIA

Associate Consultant - Nephrology

Qualification

MBBS | MD Medicine | DrNB Nephrology

Overview

Dr. Pritismita Khuntia is a qualified medical professional with an MBBS, MD in General Medicine, and DNB in Nephrology. She has a strong clinical foundation and specialised expertise in the diagnosis and management of kidney-related disorders. She is committed to delivering comprehensive, evidence-based, and patient-centric care for patients with acute and chronic medical conditions, with a special focus on renal diseases. Her areas of expertise include the management of chronic kidney disease (CKD), acute kidney injury (AKI), glomerular diseases, electrolyte and acid-base disorders, and hypertension- and diabetes-related kidney complications. She is actively involved in dialysis care, with a focus on individualised treatment planning, pre-dialysis counselling, complication management, and optimisation of renal replacement therapy to improve long-term patient outcomes. Dr. Khuntia also has a keen interest in interventional nephrology and is experienced in vascular access management, including arteriovenous (AV) fistula assessment and support, dialysis catheter insertion and care, and ultrasound-guided renal biopsy. In addition, she is involved in the comprehensive care of renal transplant patients, including pre-

transplant evaluation, post-transplant follow-up, and long-term graft monitoring. She believes in combining clinical excellence with compassion, timely intervention, and preventive strategies to slow disease progression and enhance patients' quality of life. Dedicated to maintaining the highest standards of patient care, Dr. Pritismita Khuntia continuously updates her knowledge and skills to provide advanced treatment in the evolving field of Nephrology.

Field of Expertise

- Experienced in treating chronic kidney disease
