

DR. ANIRBAN BANERJEE

Consultant - General Surgery

Qualification

MBBS | MS (General Surgery)

Overview

Dr. Anirban Banerjee is a distinguished general surgeon at Manipal Hospitals, Broadway, Kolkata, with 18 years of extensive experience. He completed his MBBS degree from B.S. Medical College, Bankura, and Master of Surgery (MS) in General Surgery at S.C.B. Medical College, Cuttack, under Utkal University. During the same year, he obtained the Membership of the Royal College of Surgeons (MRCS) in Surgery from the Royal College of Physicians and Surgeons of Glasgow. Further specialising in Laparoscopic Surgery, he completed the Fellowship of the Association of Minimal Access Surgeons of India (FMAS). He undertook a certificate course in Hepato-Biliary-Pancreatic surgery from the International Hepato-Biliary-Pancreatic Surgery Association. Dr. Banerjee's clinical skills encompass all abdominal surgeries, trauma management, breast and thyroid surgeries, cancer surgeries, hepatic-biliary-pancreatic and colorectal surgery, and surgeries for peripheral vascular diseases. Annually, he performs approximately 100 general surgeries, 300 Laparoscopic Surgeries (Appendectomy, Cholecystectomy, hernia repair, and colorectal surgeries), and 200 Endoscopic procedures. Dr. Anirban Banerjee's

career is distinguished not only by his surgical expertise but also by his commitment to advancing medical knowledge and patient care. Beyond his extensive experience in general and Laparoscopic Surgeries, he actively contributes to medical education and professional development within the field. His dedication to surgical excellence is evident in his consistent pursuit of advanced techniques and his involvement in various medical associations. Dr. Banerjee continues to be a highly regarded figure in the healthcare community, known for his compassionate approach to patient treatment and his role in shaping the future of surgical practice. Dr. Anirban Banerjee is fluent in Bengali, English, and Hindi, enabling him to communicate effectively with a diverse patient population. His linguistic proficiency ensures that patients can discuss their concerns and treatment options comfortably in their preferred language.
