

DR. DIPAYAN BISWAS

Consultant - ENT

Qualification

MBBS | MS (Otorhinolaryngology)

Overview

Dr. Dipayan Biswas is a distinguished ENT and Head-Neck Surgeon with a robust professional and academic background. Currently 48 years old, he resides in Kolkata, India, and follows Hinduism. His extensive education began at DumDum Kishore Bharati High School, where he completed his Madhyamik examination in 1991. He then pursued his Higher Secondary education at Hare School, passing in 1993. He is a Top ENT Specialist in Broadway, Kolkata. Dr. Biswas advanced his medical education at IPGMER & SSKM Hospital, where he conducted a comprehensive study on the clinicopathological aspects of otogenic brain abscesses. His thesis, guided by Prof. Ranjan Pal, underscores his dedication to addressing critical ENT issues. Professionally, Dr. Biswas has been engaged in independent private practice since 2005. His current affiliations include several reputable institutions . Additionally, he holds the position of Associate Professor in the Department of ENT at MGM Medical College, Kisanganj. His areas of specialization encompass Microlaryngeal Surgery, Micro Ear Surgery, Endoscopic Sinus Surgery, and Head-Neck Surgery, reflecting his extensive expertise and commitment to advancing surgical techniques in these

fields. Dr. Biswas' contributions to medical literature further establish his authority in ENT and head-neck surgery. He has published several significant papers in prestigious journals. His work on the necessity of conventional mastoid bandages following otological surgeries, published in the Journal of Evidence-Based Medicine and Healthcare in March 2016, critically evaluates post-surgical practices. Another notable study, featured in the International Journal of Current Medical and Applied Sciences in 2016, delves into the clinicopathological aspects of otogenic brain abscesses, providing valuable insights into hospital-based case studies. His research on sino nasal masses, published in the National Journal of Otorhinolaryngology and Head & Neck Surgery in April 2014, highlights his continuous efforts to understand and treat complex ENT conditions. Additionally, Dr. Biswas has documented a rare case of a foreign body in the oesophagus, specifically a large mango seed, in the Journal of the Indian Medical Association, showcasing his ability to address unique and challenging medical cases. Dr. Dipayan Biswas' career is a testament to his dedication to the field of ENT and head-neck surgery. His academic achievements, coupled with his extensive professional practice and contributions to medical research, underscore his commitment to advancing medical knowledge and improving patient care in his speciality.
