

**DR. DEBOPOM GOSWAMI**

Consultant - Interventional Cardiologist

**Qualification**

MBBS | MD | DM

## Overview

Dr. Debopom Goswami is an esteemed Interventional Cardiologist in Broadway, Kolkata, renowned for his commitment to clinical excellence and patient-centred care. His extensive qualifications include an MD in General Medicine, a DM in Cardiology, and the completion of the MRCP II (UK) exam. These accomplishments underscore his deep knowledge of cardiology and his dedication to staying at the forefront of advancements in medicine. Driven by an ethos of compassionate care, Dr. Goswami is dedicated to creating strong, respectful doctor-patient relationships and promoting proactive health management. In the field of cardiology, Dr. Goswami brings a unique blend of technical skills and academic engagement, as seen in his interest in continuous medical education and research. His dedication to the latest advancements is evident through his participation in a variety of professional webinars and his engagement with current scientific literature. For example, he attended a national webinar series on managing Type 2 Diabetes Mellitus (T2DM) with SGLT2 inhibitors, which reflects his understanding of the link between diabetes and cardiovascular health. Additionally, he joined an educational session on the “Diagnosis and Management of

Refractory GERD," underscoring his commitment to a holistic approach in managing cardiovascular patients who may experience overlapping conditions such as GERD, which can mimic or exacerbate cardiac symptoms. Dr. Goswami's dedication to research is also reflected in his interest in recent studies on complex medical issues, such as retinal detachment and COVID-19 complications. He engaged deeply with the DOREFA study, which tracked functional and anatomical outcomes post-repair of macula-off retinal detachment over a 12-month period, indicating his interest in multidisciplinary conditions affecting patients with cardiovascular risks. Additionally, his appreciation for research on thrombotic complications in ICU-treated COVID-19 patients shows his commitment to understanding and mitigating the impacts of such conditions on cardiovascular health. In his approach to patient care, Dr. Goswami prioritizes trust, respect, and patient education. He believes that empowering patients with knowledge about their conditions and treatment options is integral to successful outcomes. By actively involving patients in the decision-making process, he fosters an environment where individuals feel confident and engaged in their healthcare journey. His practice emphasises proactive health management, encouraging patients to adopt lifestyle changes and preventive measures that minimise the risk of severe health issues down the line. Dr. Goswami's blend of technical expertise, dedication to research, and commitment to patient-centred care make him a respected figure in interventional cardiology. Through his emphasis on continuous learning and proactive health management, he not only addresses his patients' immediate health concerns but also supports their long-term well-being. His approach serves as an exemplary model of modern medical practice, blending cutting-edge cardiology with compassionate, personalised care.
