

DR. PROTYUSH CHATTERJEE

Consultant - Orthopaedics

Qualification

MBBS (1976) | D. ORTHO (1980) | MS (ORTHO) 1989

Overview

Dr. Pratyush Chatterjee is a highly accomplished orthopedic surgeon based in Kolkata, with over 20 years of experience in the field of musculoskeletal health. His extensive training, coupled with a passion for patient care and advancing medical science, has earned him a reputation as one of the leading orthopaedic surgeons in the region. Dr. Chatterjee’s expertise covers a broad range of orthopaedic conditions, including but not limited to hip and knee replacements, knee arthroscopy, ACL reconstruction, shoulder surgery, and the management of various chronic musculoskeletal disorders. He is the Best Orthopedic Doctor in Broadway, Kolkata. Dr. Chatterjee's journey in medicine began with his education at the prestigious Calcutta National Medical College, where he completed both his undergraduate and postgraduate training. The foundation he gained during his years of study equipped him with a comprehensive understanding of the complexities of human anatomy, physiology, and surgical techniques, particularly in orthopaedics. His academic excellence and clinical proficiency led him to pursue a further specialization, and over the years, he has honed his skills to become a

master in orthopaedic surgery. Dr. Chatterjee's approach to learning is rooted in the belief that medicine is an ever-evolving field. This perspective has driven him to remain at the forefront of orthopaedic advancements through continuous education, advanced courses, and workshops. His commitment to learning ensures that his patients benefit from the latest treatment options and techniques, resulting in the best possible outcomes. Dr. Chatterjee’s expertise spans a wide range of orthopaedic surgeries and treatments, with particular focus on joint replacement and reconstruction. His proficiency in hip and knee replacement surgeries is one of the key pillars of his practice. Joint replacements, particularly for patients suffering from degenerative conditions such as osteoarthritis and rheumatoid arthritis, can significantly improve mobility, alleviate pain, and enhance the overall quality of life. Dr. Chatterjee’s meticulous approach to hip and knee replacement surgeries ensures not only successful procedures but also smooth post-operative recoveries and long-lasting results. He takes a personalized approach to each patient, considering their anatomy and needs before recommending a treatment plan. Dr. Chatterjee is also highly skilled in knee arthroscopy, a minimally invasive technique used to diagnose and treat knee joint disorders. This procedure is particularly useful for patients suffering from ligament injuries, cartilage damage, and meniscal tears. Dr. Chatterjee’s expertise in this area ensures that patients recover with minimal discomfort and downtime, making it an ideal option for individuals seeking to return to an active lifestyle quickly. In addition to knee surgeries, Dr. Chatterjee excels in ACL (anterior cruciate ligament) reconstruction, a procedure often required for patients who have suffered ligament injuries, particularly athletes. The ACL is critical for knee stability, and its injury can be debilitating if not treated correctly. Dr. Chatterjee’s precision in ACL reconstruction helps patients regain full knee functionality and return to their normal activities, including sports and other physical activities. Dr. Chatterjee’s skill also extends to shoulder surgeries, where he handles a variety of conditions ranging from rotator cuff

injuries to shoulder instability. The shoulder is a complex joint with a high degree of mobility, which makes it prone to a range of injuries. Dr. Chatterjee's in-depth knowledge of the shoulder joint, combined with his advanced surgical techniques, has helped many patients recover from both traumatic and degenerative shoulder conditions. Beyond his expertise in joint replacements and surgeries, Dr. Chatterjee has vast experience in managing various chronic musculoskeletal conditions. He has treated numerous patients suffering from Osteoarthritis and Rheumatoid Arthritis, two of the most common degenerative joint diseases. These conditions can severely impact a patient's quality of life, leading to pain, limited mobility, and a diminished ability to perform daily tasks. Through a combination of medical management, lifestyle modifications, and surgical interventions when necessary, Dr. Chatterjee can help patients manage their symptoms effectively. Dr. Chatterjee also specializes in the treatment of Cubital Tunnel Syndrome, a condition caused by the compression of the ulnar nerve at the elbow. This condition can cause pain, numbness, and weakness in the arm and hand, and Dr. Chatterjee's expertise allows him to treat it effectively through both non-surgical and surgical approaches. Another area where Dr. Chatterjee excels is in the treatment of Tennis Elbow, a common overuse injury affecting the tendons of the elbow. Through a combination of physical therapy, medication, and surgical interventions when necessary, Dr. Chatterjee helps patients recover from this painful condition and return to their normal activities. Dr. Chatterjee is highly experienced in managing various forms of musculoskeletal pain. His expertise includes the treatment of knee pain, back pain, heel pain, and finger pain, conditions that can significantly impact daily functioning. He employs a wide range of treatment methods tailored to each individual's specific needs, such as physical therapy, medications, injections, and surgical procedures. Whether it is managing bone fractures or addressing more complex conditions such as bone tumours (neoplasms), Dr. Chatterjee's approach is both thorough and compassionate. For spinal disorders, Dr.

Chatterjee takes a holistic approach, considering both surgical and non-surgical options to relieve pain and improve mobility. His experience in handling spinal conditions, including herniated discs and spinal stenosis, allows him to offer effective treatments that result in long-term relief for his patients. Dr. Chatterjee's extensive professional network includes memberships in several prestigious organizations, such as the American Academy of Orthopaedic Surgeons, the Indian Medical Association, the Indian Orthopedic Association, and the West Bengal Medical Council. His active participation in these organizations ensures that he stays up-to-date with the latest trends and advancements in orthopaedic surgery, allowing him to offer the best care possible to his patients. In addition to his clinical practice, Dr. Chatterjee has made significant contributions to the field through research and publication. He has authored both national and international publications in renowned medical journals, sharing his insights on orthopaedic treatments, techniques, and advancements. Dr. Chatterjee is frequently invited as a guest speaker at scientific meetings, CME (Continuing Medical Education) events, and international orthopaedic conferences, where he shares his expertise on the latest orthopaedic surgeries and treatment strategies. His contributions to the academic community have helped to advance the field and improve the quality of care provided to patients worldwide. Dr. Pratyush Chatterjee is a highly skilled and compassionate orthopaedic surgeon with over 20 years of experience in treating a wide variety of musculoskeletal conditions. His expertise in joint replacement surgeries, knee arthroscopy, ACL reconstruction, shoulder surgery, and the management of chronic conditions such as osteoarthritis, rheumatoid arthritis, and various ligament injuries have made him a trusted name in orthopaedic care. With a patient-focused approach, advanced surgical techniques, and a commitment to continuous learning, Dr. Chatterjee has helped countless individuals regain mobility, alleviate pain, and improve their quality of life. As a respected member of several prestigious professional organizations,

and through his contributions to the field of orthopaedic surgery, Dr. Chatterjee continues to play a vital role in shaping the future of orthopaedic care. His compassionate approach, combined with his exceptional technical expertise, ensures that his patients receive the highest quality treatment. For anyone seeking expert orthopaedic care, Dr. Chatterjee remains a trusted choice in Kolkata and beyond.
