

DR. EMILY MUKHERJEE

Consultant - Paediatrics

Qualification

MBBS | M.D. Paediatrics and Neonatology

Overview

Dr. Emily Mukherjee is a distinguished Pediatrician based in Kolkata, known for her exceptional skills in child healthcare and her compassionate approach toward treating young patients. With over 12 years of experience in paediatrics, Dr. Mukherjee has become one of the most trusted names in the field of pediatric medicine. She is currently associated with Manipal Hospitals Broadway, where she continues to provide high-quality medical care to children of all ages. She is the Best Paediatrician in Broadway. Dr. Mukherjee's career in pediatric medicine has been marked by her dedication to the well-being of children and her ability to diagnose and treat a wide range of health conditions. Her approach to pediatric care focuses on the holistic health of each child, considering not only their physical health but also their emotional and developmental needs. As a parent and child advocate, Dr. Mukherjee is known for creating a warm, caring environment that reassures both parents and children, allowing them to feel comfortable and safe during consultations. Dr. Mukherjee's journey to becoming a respected paediatrician began with her education at some of India's top medical institutions. She completed

her MBBS and then pursued postgraduate training in Pediatrics, where she gained the necessary expertise to diagnose, treat, and manage the health conditions of infants, children, and adolescents. Throughout her medical career, Dr. Mukherjee has continuously updated her knowledge through various continuing medical education programs, ensuring that she is always on top of the latest advancements in pediatric healthcare. Her clinical training, combined with years of hands-on experience, has made Dr. Mukherjee highly proficient in managing a wide variety of pediatric ailments, ranging from common childhood illnesses to more complex conditions. She is particularly known for her ability to communicate effectively with children, putting them at ease while explaining medical issues in a simple and accessible manner. Dr. Mukherjee specializes in a broad spectrum of pediatric care, with a focus on both acute and chronic conditions. Her areas of interest include: Anaemia is a common condition among children, and Dr. Mukherjee is adept at diagnosing and treating it through dietary changes, iron supplementation, and addressing any underlying causes. She educates parents on the importance of balanced nutrition and ensures that children with anemia receive the appropriate medical care. Respiratory infections, such as bronchitis, pneumonia, and the common cold, are frequent in children. Dr. Mukherjee has extensive experience in treating respiratory infections, providing both medical and preventative advice to families, helping to reduce the incidence of these infections and promoting overall lung health. Ear infections are another common concern in children. Dr. Mukherjee is skilled in diagnosing and treating otitis media and other ear-related issues, offering guidance on preventing recurrent ear infections and ensuring proper ear care for young patients. Dr. Mukherjee regularly treats children with tonsillitis, a condition that causes inflammation and infection of the tonsils. She works with families to manage the condition through antibiotics when necessary and discusses treatment options for recurrent cases, including the potential need for tonsillectomy. Asthma is a chronic condition that

affects many children, and Dr. Mukherjee is particularly skilled at managing pediatric asthma. She helps parents understand asthma triggers, provides inhaler technique training, and ensures that children with asthma are equipped with the tools to manage their condition and lead an active life. Gastrointestinal infections, such as gastroenteritis, are common in children and can cause dehydration and other complications. Dr. Mukherjee has extensive experience in managing these conditions, ensuring prompt treatment, and educating families on how to prevent future occurrences. Dr. Mukherjee provides expert care for children suffering from viral fevers, helping to identify the underlying cause of the fever and providing appropriate treatment. She offers guidance on fever management and comfort measures to ease the symptoms for children. Regular health check-ups are an essential part of preventive pediatric care, and Dr. Mukherjee ensures that children receive routine growth monitoring, vaccinations, and screenings for developmental milestones. She emphasizes the importance of early intervention when necessary, helping children stay on track with their health. Dr. Mukherjee’s practice is deeply rooted in a patient-centred approach. She believes in creating a strong partnership with both her young patients and their families. Her consultations are designed to be informative, collaborative, and reassuring, ensuring that parents feel confident in the care their child is receiving. Dr. Mukherjee is known for her ability to communicate clearly, explaining medical conditions and treatment plans in ways that are easy for parents to understand. Her kind and empathetic demeanour helps to alleviate any anxiety parents or children may feel during visits. Dr. Mukherjee’s gentle and friendly approach to children makes her a favourite among young patients. She takes the time to engage with her pediatric patients, ensuring they feel comfortable and relaxed throughout the examination. This rapport-building is an essential part of her practice, as it helps reduce fear and anxiety in children and fosters trust in the healthcare process. With over 12 years of experience in pediatric care, Dr. Mukherjee has built a reputation as

one of the leading paediatricians in Kolkata. She is highly regarded for her clinical skills, expertise in treating common and complex pediatric conditions, and her dedication to the health and well-being of children. Dr. Mukherjee's patient-focused approach and commitment to excellence in pediatric care have earned her the trust of numerous families across Kolkata. In her role at Manipal Hospitals Broadway, Dr. Mukherjee continues to provide exceptional care, working alongside a team of skilled healthcare professionals to ensure that each child receives the highest standard of treatment. She is also actively involved in preventive care, educating families on the importance of vaccinations, nutrition, and healthy lifestyle choices. Dr. Mukherjee is an advocate for preventive healthcare and regularly educates parents on the importance of early diagnosis, regular health checks, and maintaining a healthy lifestyle for children. She frequently participates in community health initiatives, health camps, and public awareness programs aimed at promoting children's health. Through these efforts, Dr. Mukherjee works to spread knowledge about common childhood illnesses, the importance of vaccinations, and the role of early intervention in managing health issues. Dr. Emily Mukherjee is one of the leading paediatricians in Kolkata, with over 12 years of experience in providing comprehensive care to children. Her expertise covers a broad range of pediatric conditions, including anemia, respiratory infections, asthma, tonsillitis, gastroenteritis, and more. Dr. Mukherjee is known for her compassionate, patient-centred approach, and her ability to make both children and parents feel at ease during medical consultations. Her practice at Manipal Hospitals Broadway provides children with the best care possible, and her commitment to preventive healthcare and health education ensures that families have the support they need to promote their children's long-term health. Through her dedication, skill, and empathetic approach, Dr. Mukherjee continues to make a significant impact on the lives of children and families in Kolkata, helping to ensure that every child receives the care and attention they deserve
