

DR. SADAJIT BANERJEE

Consultant - Internal Medicine

Qualification

MBBS | MD(INTERNAL MEDICINE) | MRCP(UK) | MAMS (NEW DELHI)

Overview

Dr. Sadajit Banerjee is a renowned physician in the field of Internal Medicine with extensive clinical experience in managing complex and chronic health conditions. With prestigious qualifications including an MD in Internal Medicine, MRCP (UK), and MAMS (New Delhi), Dr. Banerjee brings both national and international expertise to patient care. He is widely respected for his commitment to evidence-based treatment, compassionate approach, and focus on long-term health outcomes. Dr. Banerjee currently practices at Manipal Hospital Broadway, Kolkata, where he is part of a highly skilled team of specialists dedicated to providing world-class healthcare. Patients consult him for a wide range of medical concerns, from critical care and diabetes management to cardiology and infectious diseases. His core area of specialisation lies in Critical Care Medicine, where he provides advanced treatment and monitoring for patients with life-threatening illnesses. Beyond critical care, he has vast experience in Diabetes Management, helping patients control and prevent complications associated with Type 1 and Type 2 diabetes. Dr. Banerjee is also an expert in Infectious Diseases, offering accurate

diagnosis and effective treatment strategies for a wide range of infections. Dr. Banerjee has a strong interest in non-interventional cardiology, managing conditions such as hypertension, heart failure, and cardiac risk factors without invasive procedures. His holistic approach ensures that patients receive comprehensive cardiac care with a focus on lifestyle modification, medical management, and prevention. A significant part of his practice is dedicated to the elderly population, where he addresses movement disorders, memory disorders, and mood disorders, helping improve the quality of life in senior patients. He is also deeply involved in stroke rehabilitation, guiding patients through recovery with customised treatment plans aimed at regaining independence and functionality. His expertise in airway diseases, including asthma and COPD, further adds to his wide-ranging clinical practice. With his patient-first philosophy, Dr. Sadajit Banerjee ensures personalised care tailored to each individual's needs. His ability to manage multiple overlapping conditions makes him a trusted choice for patients with chronic illnesses, lifestyle-related disorders, and complex medical needs. Whether it is critical care, diabetes management, cardiology, infectious disease, or stroke rehabilitation, Dr. Sadajit Banerjee at Manipal Hospital Broadway remains dedicated to providing high-quality, ethical, and holistic healthcare to his patients.
