

DR. SANTOSH KUMAR M

Consultant - Urology

Qualification

MBBS | MS | MCH (Urology)

Overview

Dr. Santosh Kumar M is a top urologist in Brookefield, currently practising as a Consultant - Urology at Manipal Clinic Brookefield, Bangalore. Dr. Santosh brings comprehensive expertise in adult and paediatric urological health, urinary tract diseases, prostate care, and male reproductive wellness. With his distinguished academic foundation, extensive clinical experience, and patient-centred diagnostic approach, he is widely acknowledged as one of the best urologists in Brookefield, trusted for his clarity of communication, attentive evaluation, and commitment to ethical, evidence-based care. Dr. Santosh completed his MBBS, followed by MS in General Surgery, and subsequently earned his MCh in Urology. His training journey has equipped him with a deep understanding of urinary tract physiology, kidney and bladder disorders, prostate conditions, male infertility, and urodynamic evaluation. Over the years, he has cultivated a robust outpatient practice, where his focus lies in preventive urology, early detection, structured follow-up, and lifestyle-based interventions tailored to each patient’s needs. His memberships with the Urological Society of India, Karnataka Association of Urology, and the Karnataka

Medical Council reflect his active engagement with contemporary urological advancements and commitment to ongoing clinical learning. At Manipal Clinic Brookefield, Dr. Santosh provides comprehensive evaluation and long-term care for a broad spectrum of urological concerns. These include kidney-related issues such as recurrent urinary infections, renal calculi symptoms, hydronephrosis assessments, and metabolic predispositions; bladder health-related concerns such as overactive bladder, cystitis, hematuria, urinary retention, and incontinence; and prostate-related challenges including benign prostatic hyperplasia (BPH), LUTS (lower urinary tract symptoms), prostatitis, and age-related prostate health monitoring. He is also adept at managing male reproductive concerns, including erectile dysfunction, ejaculatory issues, hormonal imbalances, and male infertility investigations, such as semen analysis interpretation and hormonal profiling. For patients with chronic or recurrent conditions, Dr. Santosh follows a structured approach that integrates symptom mapping, risk factor analysis, radiological correlation, and biochemical markers to formulate accurate diagnoses. His work places strong emphasis on counselling patients about lifestyle factors, hydration habits, occupational risks, and early warning signs associated with urinary disorders. Dr. Santosh also brings specialised insight into paediatric urology, supporting children with conditions such as urinary infections, congenital urinary anomalies, phimosis, bedwetting (nocturnal enuresis), dysfunctional voiding, and developmental urinary concerns. In the field of reconstructive and functional urology, Dr. Santosh’s expertise includes managing strictures, urinary flow abnormalities, post-procedural urinary complications, and functional bladder disorders. He also works closely with patients experiencing hormonal or androgen-related concerns, ensuring that treatment pathways are both safe and outcome-focused. His gentle manner and ability to communicate with both parents and children make paediatric consultations reassuring, thorough, and child-friendly. Known for his warm approach, thorough explanations, and

unwavering patience, Dr. Santosh ensures that every patient gains a clear understanding of their condition and treatment options. His philosophy centres on early diagnosis, preventive strategies, personalised care, and fostering long-term urological wellness. These qualities further reinforce his reputation as one of the best urologists in Brookefield, relied upon by individuals and families seeking dependable, ethical, and expert urological guidance.
