Qualification

MBBS | MS | DrNB (Surgical Gastro) | FRCS (Intercollegiate-UK) | MRCS | FEBS (European Board HPB & Transplant), | Fellowship in Living/Cadaveric Liver & Pancreas Transplant (UK)

Overview

Dr. Sanjeev Rohatgi is a highly distinguished surgical gastroenterologist and liver transplant surgeon, now practiscing as a Surgical Gastroenterology HPB & Liver Transplant Surgery, Robotic Surgery at Manipal Clinic Brookefield, Bangalore. With a career spanning over 25+ years of extensive clinical experience, he has established himself as an expert in managing complex disorders of the digestive system and hepatobiliary care, making him a top gastro doctor in Brookefield. Dr. Rohatgi’s clinical foundation is supported by an exceptional academic background, including an MBBS, MS, and the Doctorate of National Board (DrNB) in Surgical Gastroenterology. He is one of the few surgeons to hold a suite of prestigious international accreditations, including the Fellowship of the Royal College of Surgeons (FRCS, UK) and the Fellowship of the European Board of Hepato-Pancreato-Biliary and Transplant Surgery (FEBS). This advanced training enables him to perform intricate procedures such as liver, pancreas, and kidney transplantation for both adult and

paediatric patients with remarkable precision. His surgical practice covers a comprehensive spectrum of gastrointestinal and oncological conditions. Dr. Rohatgi specialises in liver resections for benign and malignant tumours, complex treatments for cholangiocarcinoma, and surgical management for biliary strictures. His expertise in pancreatic tumour resections and the treatment of acute and chronic pancreatitis provides a vital lifeline for patients suffering from debilitating HPB diseases. He also remains at the forefront of gastrointestinal oncology, treating gastric and colonic malignancies through innovative, evidence-based techniques. At Manipal Clinic Brookefield, Dr. Sanjeev Rohatgi emphasises a patient-centric and multidisciplinary approach. He believes that every surgical journey should begin with a thorough evaluation and a personalised treatment plan tailored to the unique needs of the individual. His commitment to transparent communication and patient education ensures that families are fully informed, fostering a sense of confidence and security from the initial consultation through to post-operative recovery. Beyond the operating theatre, Dr. Rohatgi is a dedicated member of elite global professional bodies, including the International Liver Transplant Society (ILTS) and the International Hepato-Pancreato-Biliary Association (IHPBA). His constant integration of innovative surgical techniques and global best practices makes him a pillar of excellence for those seeking an opinion from a liver specialist in Brookefield. Patients can expect a diligent, sincere, and highly skilled approach to care that prioritises long-term health and safety.
