

DR. SANTHOSH VELU P V

Consultant - ENT & Head and Neck Surgery

Qualification

MBBS | MS ENT

Overview

Dr. Santhosh Velu P V is a well-established ENT and Head & Neck surgeon in Budigere with over 17 years of clinical experience in comprehensive ear, nose, throat, and head–neck evaluation. He is currently practising as a Consultant – ENT & Head and Neck Surgery at Manipal Clinic Budigere, providing patients with outpatient diagnosis, procedural planning, and long-term ENT care across age groups. Dr. Santhosh routinely evaluates nasal allergies, chronic sinus disease, ear infections, allergic rhinitis, tinnitus, hearing loss, vertigo, snoring, and sleep-related breathing problems. He also offers guidance for voice disorders, swallowing difficulty, throat complaints, thyroid swellings, and neck masses. He places emphasis on identifying the root cause of symptoms, correlating clinical findings with endoscopic and audiological assessments, and outlining clear treatment pathways that balance medical therapy with procedural options when required. This depth of outpatient expertise positions him among the best ENT specialists in Budigere for structured consultation-led care. Dr. Santhosh completed his MBBS, followed by an MS – ENT from Bangalore Medical College and Research Institute where he received

rigorous training in otology, rhinology, laryngology, and head and neck evaluation. Years of continuous clinical practice across tertiary hospitals and community settings have strengthened his diagnostic accuracy, particularly in patients presenting with overlapping ENT symptoms, chronic complaints, or recurrent conditions requiring careful longitudinal follow-up. Dr. Santhosh's approach focuses on conservative optimisation wherever appropriate, patient education, and timely referral for surgical intervention when clinically indicated. This measured, stepwise approach contributes to outcomes that are both safe and sustainable, reinforcing his reputation as one of the best ENT specialists in Budigere for comprehensive outpatient evaluation. His ability to consult in English, Kannada, Tamil, Telugu, Hindi, and Malayalam allows patients to express symptoms comfortably, supporting accurate history-taking and shared decision-making.
