

DR. DARSHITHA BASAPPA

Specialist - Radiology

Qualification

MD Radiodiagnosis | DNB Radiodiagnosis

Overview

Dr. Darshitha Basappa is an experienced radiologist in Bangalore, practising as a Specialist - Radiology at Manipal Clinic Budigere Cross. Dr. Darshitha brings a strong foundation in diagnostic radiology, focusing on accuracy, clinical relevance, and patient comfort. With a comprehensive academic background and hands-on experience in imaging sciences, she is adept at utilising a range of imaging modalities to aid in diagnosing and managing various medical conditions. Her approach combines precision in radiologic interpretation with an unwavering commitment to patient-centred care. She is an experienced radiologist in Budigere Cross. She completed her MBBS from MVJ Medical College and Research Hospital, Bangalore. Her passion for diagnostic sciences led her to pursue an MD in Radiodiagnosis from Vydehi Institute of Medical Sciences and Research Centre, Bangalore. She further strengthened her academic credentials by earning the DNB in Radiodiagnosis, adding depth to her understanding and diagnostic capabilities. She is skilled at identifying subtle diagnostic features across modalities and delivering detailed yet concise reports that serve as critical tools for clinicians. Committed to

offering advanced radiological services that contribute to better patient care, Dr. Darshitha demonstrates particular interest in abdominal imaging, neuroimaging, and musculoskeletal radiology. She specialises in cross-sectional imaging and conventional radiology, including X-rays, ultrasounds, CT scans, fluoroscopy, mammography, PACS, and MRIs. Her clinical focus includes interpreting imaging findings with precision and collaborating closely with referring physicians to ensure timely and appropriate treatment decisions. In addition to her clinical work, Dr. Darshitha remains committed to ongoing professional development, regularly participating in academic forums, radiology workshops, and internal departmental reviews. She continuously strives to stay updated with advancements in imaging technologies and interpretation protocols, reflecting her dedication to providing the highest quality of diagnostic care. Dr. Darshitha speaks Kannada, English, Telugu, Tamil, and Hindi. Her ability to communicate findings in a patient-friendly and accessible manner enhances her effectiveness as a radiologist in Budigere Cross.
