

DR. SUSHMITHA S

Consultant - Radiology

Qualification

MBBS | MDRD | Fellowship in Fetal Medicine

Overview

Dr. Sushmitha S is an experienced radiologist in Bangalore with a special interest in Fetal Radiology. She currently practises at Manipal Clinic Budigere Cross as a Consultant - Radiology. With a strong foundation in diagnostic radiology, fetal imaging and high-risk obstetric imaging, Dr. Sushmitha delivers high-precision radiological expertise combined with patient-centric care. Her clinical approach emphasises early and accurate diagnosis, ensuring optimal outcomes for both mother and child. She is a Skilled Radiologist in Budigere Cross. On the academic front, Dr. Sushmitha completed both her MBBS and MD in Radiodiagnosis from Rajarajeswari Medical College and Hospital, Bangalore, where she built a robust foundation in clinical imaging. Her pursuit of excellence led her to complete a Fellowship in Fetal Medicine at Dr. Adi Advanced Centre for Fetal Care, Bangalore, which equipped her to detect and manage fetal anomalies in high-risk pregnancies. Dr. Sushmitha performs a broad spectrum of ultrasound scans, including abdomen, pelvis, small parts, limb Dopplers, and 3D pelvis scans. Her core strength lies in fetal imaging, where she conducts various antenatal scans such as early pregnancy assessments, antenatal

ultrasound, NT scans, detailed anomaly scans, fetal growth and Doppler studies, cervical length assessments, fetal echocardiography, and fetal neurosonography. Dr. Sushmitha is particularly experienced in handling cases of multiple gestations and high-risk pregnancies. She also performs invasive diagnostic and therapeutic procedures with precision, including amniocentesis, chorionic villus sampling (CVS), fetal reduction, ascitic and pleural fluid tapping, and FNAC/biopsy procedures under ultrasound guidance. Her ability to interpret complex imaging findings and communicate them clearly to clinicians and patients enhances her effectiveness as a radiologist in Budigere. Beyond her clinical expertise, Dr. Sushmitha brings a compassionate, calm, and reassuring presence to every patient interaction. She continues to engage in academic enrichment and actively participates in medical associations such as the Indian Radiological and Imaging Association (IRIA), the Indian Medical Association (IMA), and the Society of Fetal Medicine (SFM). Her dedication to lifelong learning ensures that her practice remains aligned with the latest radiology and fetal medicine advances. Dr. Sushmitha S speaks Kannada, English, Hindi, and Telugu, effectively communicating with a diverse patient population.

Fellowship & Membership

- Indian Radiological and Imaging Association (IRIA)
- Indian Medical Association (IMA)
- Society of Fetal Medicine (SFM)

Field of Expertise

- Ultrasound Scans Like Abdomen and Pelvis, Small Tissues, Limb Dopplers, 3D Pelvis, Neonatal Neurosonogram
- All Types of Antenatal Scans

- Such as Foetal NT, Anomaly
- Foetal Echocardiography
- Neurosonogram
- Growth and Dopplers
- AFI
- Early Pregnancy
- Multiple Gestations and Cervical Length
- Performing Various Invasive Antenatal Procedures Like Amniocentesis, Chorionic Villus Sampling, Etc., for Diagnosis of Chromosomal and Genetic Abnormalities
- Fetal Reduction
- Other Invasive Procedures Like Ascitic and Pleural Tapping
- FNAC/Biopsy Sampling

Languages Spoken

- Kannada
- English
- Hindi
- Telugu
