

DR. MOHAMMED ANWAR ASLAM

Consultant - Urology

Qualification

MBBS | MS | MCH (Urology)

Overview

Dr. Mohammed Anwar Aslam is a precise and clinically astute urologist in Budigere with focused expertise in endourology, uro-oncology, and comprehensive urological evaluation. He is currently practising as a Consultant – Urology at Manipal Clinic Budigere, Bangalore, bringing over 7 years of clinical experience in the consultation, diagnosis, and medical management of a wide spectrum of urological conditions. He completed his MBBS from Ballari Medical College and Research Centre under Rajiv Gandhi University of Health Sciences, followed by MS in General Surgery from Mysore Medical College & Research Institute, and further pursued MCh in Urology from Kottayam Medical College under Kerala University of Health Sciences. This structured academic training has provided him with a strong clinical and surgical foundation in urology. In a clinical setting, Dr. Aslam’s approach centres on structured evaluation, accurate diagnosis, and evidence-based treatment planning. He routinely assesses patients presenting with urinary symptoms such as difficulty in urination, recurrent urinary tract infections, kidney stones, haematuria, prostate-related concerns, and male reproductive health issues. His consultations are thorough,

involving detailed history-taking, clinical examination, and interpretation of relevant investigations to arrive at precise diagnoses. His expertise in evaluating such conditions contributes to his recognition as one of the best urologists in Budigere for comprehensive outpatient care. Dr. Aslam also provides specialised consultations for complex urological conditions, including suspected urological cancers, obstructive uropathies, and congenital or structural abnormalities of the urinary tract. His training in advanced urology allows him to guide patients through appropriate diagnostic pathways and discuss suitable management options with clarity. He places particular emphasis on early detection and timely intervention, ensuring that patients receive well-informed clinical direction at every stage of care. His areas of interest include uro-oncology, paediatric urology, andrology, and renal health, all of which are reflected in his consultation practice. Patients benefit from his ability to connect symptoms with underlying pathology and recommend tailored management strategies, whether medical, lifestyle-based, or procedural referrals when required. His expertise in these areas makes his clinical opinion valuable for individuals seeking clarity on persistent or complex urological concerns. Fluent in English, Kannada, Hindi, Telugu, and Malayalam, Dr. Aslam communicates effectively with a diverse patient population, making consultations more accessible and reassuring. At Manipal Clinic Budigere, he offers structured, patient-focused urology consultations, combining clinical depth with clarity, positioning him among the best urologists in Budigere for evaluation and management of urological conditions.
