

DR. SATYANARAYANA MYSORE

Chairman HOD & Consultant - Pulmonology Sleep Medicine & Lung Transplant Physician

Qualification

MBBS | DNB (Internal Medicine) | FRACP (Australia) | FCCP | FACP

Overview

Dr. Satyanarayan Mysore is an accomplished specialist with practical experience in Pulmonology and Lung Transplantation. He is currently the HOD (Head of the Department) and Consultant in Pulmonology in Clinic Indiranagar at Manipal Hospital. His commitment to providing patients with the utmost care and clinical teaching has earned him recognition and numerous awards throughout his career. Dr. Mysore also has an impressive educational background. He received his MBBS degree, which he obtained during his undergraduate studies. He pursued his postgraduate education and obtained a DNB (Diplomate of National Board) in Internal Medicine. Dr. Mysore also holds the prestigious FRACP (Fellow of the Royal Australasian College of Physicians) qualification from Australia. In addition to these qualifications, he is a fellow of the American College of Chest Physicians (FCCP) and the American College of Physicians (FACP). His diverse qualifications showcase his dedication to continuous learning and professional growth. As a Pulmonology trained professional, Dr. Satyanarayana Mysore has expertise in different areas of respiratory medication. His main subject area focuses on diagnosing and

managing airway diseases like Asthma and COPD (Chronic Obstructive Pulmonary Disease), interstitial lung infections, pneumonic hypertension, rare lung diseases, respiratory diseases like tuberculosis (TB), and drug-resistant TB. Additionally, he has extensive experience detecting and staging lung malignancies, home therapy, and various forms of pulmonary rehabilitation. Dr. Mysore is the best pulmonologist in Bangalore. Dr. Mysore is also interested in sleep medicine and is skilled in identifying and treating sleep difficulties such as obstructive sleep apnea (OSA), insomnia, irregular circadian rhythms, and restless leg syndrome. He is familiar with popular rest assessment tools, including the Multiple Sleep Latency Test (MSLT) and the Proposed Immobilisation Test. Dr. Satyanarayana Mysore is also skilled in interventional pulmonology procedures. He is trained in image-guided transbronchial lung biopsy, endobronchial ultrasound (EBUS), advanced video bronchoscopic interventions, and medical thoracoscopy. These procedures enable him to diagnose and treat various lung conditions using minimally invasive techniques. He is well-versed in three languages Kannada, English, and Hindi. This multilingual ability helps him to communicate effectively with patients from diverse backgrounds, ensuring a comprehensive understanding of their medical concerns. Dr. Mysore has actively participated in various talks and published numerous articles on topics related to his expertise. His contributions cover subjects such as respiratory infections, COVID-19 treatment, lung health, and the impact of the pandemic on lung function. These articles and talks demonstrate his dedication to educating the medical community and the general public about crucial respiratory health issues.
