

DR. SAMIHA SHARIFF

Associate Consultant – Endodontics & Restorative Dentistry

Qualification

BDS | MDS

Overview

Dr. Samiha Shariff is a highly accomplished micro-endodontist and aesthetic dentist in Indiranagar. She is currently practising as an Associate Consultant – Endodontics & Restorative Dentistry at Manipal Clinics Indiranagar, Bangalore. Her expertise in microscopic endodontics, regenerative endodontic procedures, and aesthetic restorations has made her one of the best endodontists in Indiranagar for patients seeking advanced tooth-preserving treatments and long-term oral health solutions. Dr. Samiha completed her foundational medical training with a Bachelor of Dental Surgery (BDS) from the reputed M.R. Ambedkar Dental College and Hospital, Bengaluru. Driven by a passion for tooth preservation and restorative excellence, she went on to complete her Master of Dental Surgery (MDS) in Conservative Dentistry and Endodontics from The Oxford Dental College and Hospital, Bengaluru. At Manipal Clinics Indiranagar, Dr. Samiha’s clinical consultation practice centres on saving natural dentition and restoring optimum dental aesthetics. She specialises in precision microscopic endodontics, single-visit root canal treatment (RCT), and complex endodontic retreatment cases. Her specialised

technical skill set is highly sought after for managing intricate anatomical challenges, including the navigation of calcified and severely curved canals, retrieval of separated instruments, microscopic perforation repairs, resorption management, and executing regenerative endodontic procedures and vital pulp therapies. Dr. Samiha possesses extensive procedural mastery in modern aesthetic & restorative dentistry and smile design. Utilising contemporary, tissue-preserving protocols, she performs high-end smile rehabilitation, biomimetic cosmetic dental restorations, direct and indirect aesthetic veneers, and comprehensive dental trauma management. Her diagnostic planning is enhanced by cutting-edge Cone Beam Computed Tomography (CBCT-guided) endodontic charting, which ensures absolute accuracy, painless delivery, and maximised long-term clinical success. Alongside her clinical practice, Dr. Samiha has demonstrated a strong commitment to academic excellence and clinical research, focusing on biomimetic restorative materials and contemporary endodontic treatment protocols. She is a recognised clinical speaker and dental educator, regularly conducting hands-on training, including inlay demonstrations at The Oxford Dental College and specialised retreatment workshops at the Dr. Ronald Training Centre, Bangalore. Fluent in English, Hindi, Urdu, and Kannada, with academic-level proficiency in Arabic, her compassionate approach and strict attention to detail ensure that patients receive comprehensive, ethical, and entirely patient-centred dental care.
