

DR. PRIYADHARSHINI K

Associate Consultant - Cardiology

Qualification

MBBS | MD (General Medicine) | DM (Cardiology)

Overview

Dr. Priyadharshini K is a dedicated and highly motivated interventional and clinical cardiologist in Indiranagar, with years of rich medical and specialised cardiovascular experience in comprehensive non-invasive diagnostics, acute heart failure care, and preventive women's cardiology. She is currently practising as an Associate Consultant - Cardiology at Manipal Clinic, Indiranagar, Bangalore. Dr. Priyadharshini holds advanced super-speciality training from one of India's premier cardiac centres, equipping her with master-level skills in 2D/3D echocardiography, transesophageal echocardiography (TEE), and guideline-directed interventional therapies. Her evidence-based approach to complex cardiovascular conditions has established her among the best cardiologists and heart specialists in Indiranagar, Bangalore. Dr. Priyadharshini completed her MBBS before pursuing an MD in General Medicine from Bangalore Medical College and Research Institute, where she built a strong foundation in internal medicine and cardiovascular sciences. She further specialised with a DM in Cardiology from the Sri Jayadeva Institute of Cardiovascular Sciences and Research, Bengaluru, one of India's premier tertiary cardiac care

centres. During her advanced training, she gained extensive experience in managing complex cardiovascular disorders and performing advanced cardiac imaging and interventional cardiology procedures. At Manipal Clinic Indiranagar, Dr. Priyadharshini K manages a comprehensive clinical suite addressing acute and chronic cardiovascular disorders. Her interventional and diagnostic expertise spans the evaluation of acute coronary syndromes (STEMI, NSTEMI, unstable angina), chronic ischemic heart disease, and acute or worsening chronic heart failure. She possesses specialised proficiency in evaluating complex valvular heart diseases (rheumatic, degenerative, and congenital), infective endocarditis, acute pulmonary embolism, cardiomyopathies, pulmonary hypertension (including CTEPH), and cardiac arrhythmias. Alongside her clinical practice, Dr. Priyadharshini actively contributes to cardiovascular research and academic advancement. She is actively involved in publications and ongoing research projects aimed at improving cardiovascular outcomes. Her work has been presented at national and international scientific conferences, reflecting her commitment to advancing the field through continuous learning and research. She has also received multiple first-rank awards, honours, and merit certificates for academic excellence during her MBBS, and a Research Merit Award for undergraduate research. Fluent in English, Kannada, Hindi, and Tamil, Dr. Priyadharshini believes in empowering patients through education, shared decision-making, and personalised treatment plans. She is committed to delivering compassionate, evidence-based cardiovascular care that focuses not only on treating heart disease but also on preventing future complications and improving long-term quality of life. Her expertise in clinical and interventional cardiology, coupled with her dedication to research and preventive heart care, makes her one of the best cardiologists in Bangalore.
