

**DR. MITESH MAKWANA**

Consultant - Nephrology

**Qualification**

MBBS | MD (Internal Medicine) | DrNB (Nephrology)

## Overview

Dr. Mitesh Makwana is a highly experienced Consultant Nephrologist with a robust background in managing large dialysis facilities and providing critical care for patients in intensive care units. He is currently practising as a Consultant - Nephrology at Manipal Hospitals, Sarjapur, Bengaluru. He has worked in prestigious institutions, where he is deeply dedicated to advancing nephrology education and significantly improving patient outcomes through the application of evidence-based practices and rigorous research. Dr. Makwana possesses extensive expertise in addressing challenging and complex cases across all facets of nephrology, including General Nephrology, Dialysis, Kidney Transplantation, and Critical Care Nephrology. His proficiency extends to managing highly intricate situations that necessitate advanced life support modalities such as ECMO (Extracorporeal Membrane Oxygenation) and CRRT (Continuous Renal Replacement Therapy). His specialised nephrology training was obtained from the prestigious Muljibhai Patel Urological Hospital in Nadiad, where he honed his skills under the tutelage of renowned nephrologists. Demonstrating a wide range of procedural skills, Dr.

Makwana has successfully performed over 100 native kidney and graft biopsies and is highly proficient in the insertion of DLC (Dual Lumen Catheter), TLC (Triple Lumen Catheter), and perm cath (Peritoneal Dialysis Catheter). Furthermore, his short training in Rheumatology also helped him to come up with a unique holistic approach to managing patients who require interdisciplinary care, ensuring comprehensive and integrated treatment strategies. He is an active and contributing member of several esteemed professional organisations, including the Indian Society of Nephrology, the International Society of Nephrology, and the American Society of Nephrology.
