Overview

Dr. Satinder Kumar Jain is a highly skilled Consultant Thoracic Surgeon with years of expertise in treating complex chest and lung conditions. Based in Delhi, he specializes in various aspects of thoracic surgery, including the management of lung cancer, chest wall tumours, chest trauma, and complications related to pulmonary tuberculosis. He is renowned for his proficiency in minimally invasive surgeries, particularly Video-Assisted Thoracoscopic Surgery (VATS), which includes both multiport and uniportal techniques, providing patients with less invasive and more effective options. Dr. Jain's career is marked by significant involvement in professional societies and numerous prestigious memberships. He is a member of the Indian Association of Cardiovascular-Thoracic Surgeons, the Indian Society of Thoracic Surgeons, and the Association of Surgeons of India, among others. His contributions to the field are substantial, with over 20 publications in leading medical journals. Dr. Jain is frequently invited to speak at national and international medical conferences, sharing his

insights on topics such as thoracic oncosurgery and robotic thoracic surgery. In addition to his clinical practice, Dr. Jain has held various key leadership roles in medical organizations. He served as the National President of the Association of Thoracic & Vascular Surgeons of India (ATVSI) and has been involved in organizing conferences and workshops to further the education of fellow medical professionals. Notably, he has been a faculty member at national-level conferences, where he has shared his expertise in areas such as carotid interventions, bronchoscopy, and critical care. Dr. Jain's contributions extend to the academic side of medicine as well, having been a reviewer for prestigious journals like the Indian Journal of Thoracic & Cardiovascular Surgery. His commitment to improving the field of thoracic surgery has earned him numerous accolades, including being listed in the Who's Who of the American Biographical Institute.
