

DR. TEJASVI SINGH RANDHAWA

Consultant - Neurosurgery

Qualification

MBBS | MS (Gen Surgery) | MCh Neurosurgery (PGI Chandigarh)

Overview

Dr. Tejasvi Singh Randhawa is a distinguished neurosurgeon based in Delhi, currently serving as a Consultant in Neurosurgery at Manipal Hospitals, Dwarka. With over eight years of experience, he has earned a reputation for excellence in managing complex neurological conditions using advanced surgical techniques and a patient-centric approach. Dr. Randhawa completed his MBBS from Delhi University and went on to pursue an MS in General Surgery, followed by an MCh in Neurosurgery from the renowned Post Graduate Institute of Medical Education and Research (PGIMER), Chandigarh. His rigorous academic and clinical training has equipped him with the expertise to address a wide spectrum of neurological disorders. His areas of clinical interest span a comprehensive range of neurosurgical procedures. These include the treatment of traumatic brain and spine injuries, minimally invasive surgeries of the brain and spine, cerebrovascular surgery, neuro-oncology (for benign and malignant brain and spinal tumours), endoscopic brain and spine surgery, pediatric neurosurgery, and stereotactic radiosurgery. Dr. Randhawa is known for creating tailored treatment plans that align with the unique needs of each patient,

ensuring optimal outcomes with minimal invasiveness. He is an active member of the Neurological Society of India and the Neurological Surgeons Society of India, contributing not only through clinical work but also through academic publications. His research has been featured in reputed medical journals such as the Journal of Cerebrovascular Sciences and the Journal of Pediatric Neurosciences, underlining his commitment to advancing the field of neurosurgery. Patients highly regard Dr. Randhawa for his empathetic consultations, detailed assessments, and effective treatment strategies. His dedication to improving patient lives and his meticulous surgical skills have established him as a trusted name in neurosurgery in the region. With a strong foundation in both clinical practice and academic excellence, he continues to make a meaningful impact in the lives of patients facing neurological challenges.
