

## **DR. SAGAR TYAGI**

Consultant - Interventional Radiology

### **Qualification**

MBBS | MD – Radiodiagnosis | PDCC – Vascular and Interventional Radiology

### **Overview**

When people meet Dr. Sagar Tyagi, they quickly realise he is more than just an accomplished interventional radiologist — he is a doctor who understands that empathy and trust matter just as much as medical expertise. With an MBBS degree, a Doctor of Medicine in Radiodiagnosis, and additional post-doctoral specialisation in vascular and interventional radiology, Dr. Tyagi has had his career defined by accuracy, creativity, and patient-centred care. Interventional radiology is fast becoming the treatment of many disorders, doing away with extensive surgical incisions in favour of image-guided interventions that are less traumatic for the patient and very often prompt quicker recovery. In many ways, Dr. Tyagi is quite a unique figure with his stunning blend of skills and the human, approachable aspect of his personality. Understanding that medical visits are often an ordeal, he keeps a patient in the loop with simple language at every step and patiently addresses every doubt until his clients feel at ease. Many have confided that this relaxed yet thorough interaction gave them the confidence to move forward with treatment. Being bilingual in English and Hindi means Dr. Tyagi closes any gaps that can otherwise develop

between people of various walks of life, thus making sure that every patient feels heard and supported. This work covers the whole gamut of vascular and interventional procedures. He, along with a team of specialists, ensures that every patient is treated with care, focusing on the entire disease picture rather than just the symptom or problem at Manipal Hospitals. For Dr. Tyagi, success is measured beyond clinical outcomes; it embraces factors like pain relief, comfort, and a good patient experience living. If you are truly seeking a considerate, competent, and compassionate interventional radiologist in Delhi, you cannot go wrong with Dr. Sagar Tyagi, as he possesses the rare combination of the foremost technical know-how and the truly human touch. The simple yet powerful idea that guides him is: “Treat every patient as you would want a loved one to be treated.”
