

DR. SAHIL BAMBROO

Consultant - Medical Oncology

Qualification

MBBS | MD - Medicine | DM - Medical Oncology

Overview

Dr. Sahil Bambroo is highly trained and experienced medical oncologist. He accomplished his MD in General Medicine before specialising with a DM in Medical Oncology from the renowned Amrita School of Medicine, Amrita Institute of Medical Sciences, Kochi. He has extensive experience in medical oncology and has worked in academic institutions, government organisations and peripheral centres. He is well versed with management of solid cancers (like breast, head and neck, lung, gastrointestinal, genito-urinary etc.) and haematological disorders and malignancies. He started the medical oncology services and daycare chemotherapy units at certain centres, including the Daycare Chemotherapy Unit at ESIC Hospital, Okhla, Delhi. He has been closely associated with community oncology and has had the opportunity to serve people through outreach OPDs at peripheral centres in NCR region and various other centres across the country. Compassion, humility and patient advocacy are at the core of his practice. He closely monitors each patient and helps them navigate through the complex and at times, overwhelming path of cancer treatment. He pays attention to every detail and personalises every

treatment plan by giving a lot of time to each patient to address all their concerns and making shared decisions after thorough discussions. He collaborates closely with his peers, including surgical and radiation oncologists, radiologists and pathologists to understand the complexities of every case before arriving at conclusions and planning treatment. His academic contributions include mentorship of DM and DrNB trainees, medical residents, undergraduates, nursing and allied professionals including physician assistants. He believes in the value of team work and respects every member of his team for their role and contribution. He is a member of national and international organisations dealing with cancer care and is an editorial board member for the International Journal of molecular and immunology. He believes in updating himself with the latest developments in the field of cancer to offer the best to his patients. Dr Bambroo has authored many scientific papers for both national and international publications and has been a distinguished speaker at various medical conferences. He is part of many cancer awareness programs and is actively involved in various activities focussed at cancer prevention.
