

DR. NAMAN AGGARWAL

Consultant – Urology

Qualification

MBBS | MS (General Surgery) | MCh (Urology)

Overview

Dr. Naman Aggarwal is highly regarded for his exceptional surgical expertise and precision in urology, uro-oncology, and renal transplantation, consistently delivering excellent outcomes across a wide range of advanced urological and minimally invasive procedures. With formal training and certifications from leading national and international institutions—including a fellowship in Andrology from the American Society of Reproductive Medicine and an observership at First IVF, Dubai—he remains at the forefront of modern surgical techniques. Equally distinguished for his interpersonal strengths, Dr. Aggarwal is a compassionate listener who takes the time to understand every patient's concerns, ensuring each treatment plan is personalised and aligned with their unique needs. His approachable nature and clear, empathetic communication style foster trust and comfort, empowering patients to actively participate in their care journey. Dr. Aggarwal is also known for his skills in patient counselling, adeptly simplifying complex medical information so patients and their families feel informed and assured throughout the process. Adopting a multidisciplinary approach, Dr. Aggarwal collaborates closely with

specialists across different fields whenever patients require a comprehensive, team-based strategy—especially in cases involving comorbidities or complex conditions. He firmly upholds patient confidentiality and is committed to the highest standards of ethical practice, ensuring all medical data is managed with the utmost discretion and security. Dedicated to lifelong learning, Dr. Aggarwal actively seeks out new evidence-based advances and consistently implements the latest techniques to enhance patient experience and outcomes. His impressive track record, passion for knowledge, and focus on individualised, holistic care have earned him both the respect of the medical community and the trust of his patients.
