

DR. DEEPIKA GULATI DUMEER

Consultant – Pediatrics

Qualification

MBBS | DCH | DNB Pediatrics | MRCPCH

Overview

Dr. Deepika Gulati Dumeer is an accomplished and compassionate Senior Pediatric Consultant with over 15 years of extensive experience in delivering high-quality pediatric care across leading healthcare institutions in New Delhi. She specializes in managing a broad spectrum of pediatric conditions ranging from routine childhood illnesses to complex and chronic diseases requiring multidisciplinary involvement. She has served as Assistant Professor of Pediatrics at prestigious institutions including AIIMS-CAPFIMS and Army College of Medical Sciences, Delhi Cantt, where she played a vital role in clinical care, medical education, and departmental research initiatives. In these academic roles, she actively participated in competency-based medical education, mentored undergraduate and postgraduate medical trainees, and contributed to developing improved clinical protocols and pediatric care guidelines. During her long tenure at Mata Chanan Devi Hospital, Janakpuri, she provided comprehensive pediatric services, including emergency care, preventive health programs, routine immunizations, developmental assessments, and management of both acute and chronic childhood conditions. Her expertise also extends to

neonatal care, pediatric emergencies, long-term disease management, and coordinated multidisciplinary treatment planning. Dr. Deeepika is highly committed to evidence-based medical practice and has contributed to multiple peer-reviewed medical research publications in pediatrics, maternal-fetal medicine, perinatal risk assessment, and pediatric syndromes. Her interest in continual learning is reflected in her certifications in Pediatric Advanced Life Support, Neonatal Resuscitation, Medical Education Technology, and other advanced pediatric training modules. With strong communication skills, she emphasizes patient and family education, ensuring parents are well informed about preventive child health, nutrition, growth and development, and disease management. She is known for her empathetic approach, attention to detail, and dedication to improving child health outcomes. Her professional journey showcases her commitment to clinical excellence, teaching, research, and community outreach. She remains deeply devoted to enhancing pediatric healthcare delivery and ensuring compassionate, evidence-based care for infants, children, and adolescents.
