

DR. VINAY KUMAR RAI

HOD - Neonatology

Qualification

MBBS | MD Pediatrics | DrNB Neonatology

Overview

Dr. Vinay Kumar Rai is a highly skilled and dedicated neonatologist with a passion for providing exceptional care to newborns. With years of experience in the field, he has become a recognised expert in neonatology, specialising in the care of critically ill premature infants and newborns with complex medical conditions. Dr. Vinay Kumar Rai completed his Bachelor of Medicine and Bachelor of Surgery (MBBS) degree from D.M.C.H. He then pursued his MD Paediatrics at the renowned KGMC, Lucknow, further enhancing his knowledge and skills in paediatric care. Driven by his passion for neonatal care, he went on to complete his DNB in Neonatology from KEM Hospital, Pune, where he focused on the care of premature infants, neonatal resuscitation, and neonatal intensive care. In addition to his clinical work, Dr. Rai is committed to contributing to the advancement of neonatology through his research efforts. He has published articles in reputable medical journals, focusing on various topics related to neonatal care, long-term outcomes of premature infants, and strategies to improve neonatal healthcare delivery. Recognising the importance of medical education, Dr. Rai actively engages in mentoring residents and fellows, sharing his

expertise and knowledge. He also advocates for improved neonatal care policies and resources, aiming to enhance the overall quality of care provided to newborns. Dr. Rai's dedication to his patients, along with his expertise and empathy, makes him an invaluable asset in the field of neonatology.
