

DR. PRANSHUTA

Consultant - Intensivist

Qualification

MBBS | MD (PGIMER) | DrNB Critical care (SGRH)

Overview

I am a trained intensivist with extensive experience in the management of critically ill patients. I have advanced expertise in acute respiratory failure, ventilatory support, and hemodynamic monitoring, and I am well-versed in a wide range of ICU procedures. My clinical approach emphasizes evidence-based treatment, close physiological monitoring, and compassionate, patient-centered care for patients requiring intensive care support. Special interests and expertise include acute respiratory failure, hemodynamic monitoring, mechanical ventilation, shock management, and ICU procedures such as vascular access, airway management, and invasive monitoring.
