

DR. MANISH DUTT

Consultant - Medical Oncology

Qualification

MBBS | MD | DrNB (Medical Oncology) | Certificate in Essentials of Palliative Care

Overview

Dr. Manish Dutt is a distinguished clinical oncologist with over 9 years of experience, possessing dual specialisation in Medical Oncology (DrNB) and Radiation Oncology (MD). His medical pedigree includes MBBS and MD training at the prestigious Maulana Azad Medical College (MAMC), a Senior Residency at the AIIMS, New Delhi, and a DrNB in Medical Oncology from the renowned Max Super Speciality Hospital, Saket. This exceptional training equips him with a deeply comprehensive, multidisciplinary perspective on cancer care. He has extensive clinical expertise in diagnosing and managing a wide spectrum of solid tumors and haematological malignancies across both adult and pediatric populations. Dr. Dutt is at the forefront of precision oncology, seamlessly integrating modern systemic therapies such as immunotherapy, targeted therapies, complex chemotherapy, and Antibody-Drug Conjugates (ADCs) with foundational radiation techniques to offer highly optimised and individualised treatment plans. Committed to holistic patient care and safety, Dr. Dutt is certified in palliative care and holds a research background in cardio-oncology, focusing on minimising treatment-related toxicities. Known

for his compassionate approach, he empowers patients through clear communication, actively collaborating in multidisciplinary tumour boards to ensure they receive the highest standard of evidence-based medical care.

Fellowship & Membership

- Registered Member, European Society of Medical Oncology
- Lifetime Member, Association of Radiation Oncologists of India (AROI)
- Active participant in ICRO, ISMPO, IBS, and Max Cancer Congress forums
- Registered Member, Delhi Medical Council (DMC/R/09862)
- Registered Member, Haryana Medical Council (HN 28405)

Field of Expertise

- Advanced Systemic Therapies: Precision Administration of Chemotherapy, Immunotherapy, Targeted Therapy, Hormonal Therapy, and Antibody-Drug Conjugates (ADCs).
- Solid Tumour Management: Comprehensive evidence-based treatment of Breast, Thoracic (Lung), Gastrointestinal and Hepato-biliary, Head and Neck, Genitourinary, Gynaecological Cancers and Sarcomas.
- Haematological Malignancies: Diagnosis and management of Lymphomas and Myelomas in adult and pediatric populations.
- Radiation Oncology Integration: Strategic treatment planning combining systemic agents with concurrent radiation techniques for synergistic disease control.
- Oncologic Procedures: Diagnostic and therapeutic interventions including bone marrow aspirations and biopsies, lumbar punctures, intrathecal chemotherapy and the instillation of

chemotherapy for HIPEC and PIPEC procedures.

- Cardio-Oncology & Palliative Care: Proactive management of treatment-related toxicities, pain management, and holistic supportive care.

Languages Spoken

- English
- Hindi

Awards & Achievements

- Certificate of Commendation (National Board of Examinations): Awarded for an outstanding DrNB Thesis on Cardio-Oncology.
- Advanced Life Support Certified: Trained in Basic & Advanced Life Support (BLS/ACLS) and Surgical Skills/Life Support Techniques at MAMC.

Talks & Publications

- DrNB Thesis (Awarded): "Prospective Observational Pilot Study for Early Detection of Cardiac Dysfunction Associated with Chemo-Immunotherapeutic Agents by ECG and Echocardiography".
- MD Thesis: "Assessment of Response and Toxicity in Carcinoma Cervix Patients Treated with Neoadjuvant Chemotherapy and Chemoradiation."
- Co-Authored Publication: "Multiple Primary Neoplasms in Patients with Haematological Malignancies" (Editorial review pending).
- Distinguished faculty and invited speaker at premier national

and international oncology conferences, regularly sharing expert clinical insights globally.
