

DR. BIMALESH PURKAIT

Consultant - Urology

Qualification

MBBS | MS (General Surgery) | MCh (Urology)

Overview

Dr. Bimalesh Purkait is a renowned urology consultant at Manipal Hospitals in Dhakuria, Kolkata bringing over 22 years of invaluable experience. Dr. Purkait completed his MBBS degree and subsequently achieved his MS in General Surgery from the prestigious All India Institute of Medical Sciences, New Delhi, where his exceptional academic performance earned him a distinguished gold medal award. His dedication to specialisation led him to pursue and complete his MCh in Urology from King George Medical University (KGUM), Lucknow. Throughout his career, Dr. Purkait has refined his skills in Urology Surgery, particularly advanced Laparoscopy and Microsurgery, having performed over 5000 surgeries of various complexities. His focus lies predominantly in Uro-oncology and Uro-oncological Surgery. Moreover, Dr. Purkait is proficient in performing Laser Cancer Surgery, where he employs cutting-edge techniques to optimise surgical outcomes and minimise post operative complications. His expertise also extends to the treatment of kidney, prostate, bladder, and penile cancer, where he adopts a multidisciplinary approach to offer personalised and effective treatment strategies. In addition to his clinical practice, Dr.

Purkait is actively involved in academic endeavours. He has authored over 40 papers in esteemed national and international journals, contributed chapters to various books, and regularly conducts teaching sessions for postgraduate urology trainees and students. Dr. Purkait's commitment to advancing the field is further underscored by his role as an executive council member of the Bengal Urological Society (BUS), and he actively participates in many activities at both state and national levels across various platforms. With fluency in English, Bengali, and Hindi, Dr. Purkait ensures effective communication with patients from diverse linguistic backgrounds, reaffirming his commitment to providing compassionate and comprehensive care.
