

DR. ARHANA BANERJEE

Associate Consultant - Nephrology and Renal Transplant

Qualification

MBBS | DNB (Medicine) | DrNB (Nephrology)

Overview

Dr. Arhana is an experienced nephrologist with over eight years of clinical expertise, specialising in holistic kidney care, critical care nephrology, and extracorporeal treatment therapies. She earned her MBBS in 2016, completed her DNB in General Medicine in 2022, and obtained her DrNB in Nephrology in 2026 from the National Board, New Delhi. Her clinical expertise includes the diagnosis and management of a wide range of renal conditions such as acute kidney injury (AKI), chronic kidney disease, and hypertension. Dr. Arhana has overseen more than 200 renal transplantations, including cadaveric, ABO-incompatible, sensitized patients, and second kidney transplantations. She is highly skilled in both perioperative care and the long-term follow-up and management of renal transplant recipients. With specialised training in critical care nephrology, she has strong expertise in advanced extracorporeal therapies for critically ill patients. She is proficient in dialysis management as well as nephrology procedures, including renal biopsies, hemodialysis catheter insertions, and permacath placements. Her interests also include preventive nephrology, with a focus on diabetic kidney disease management and

strategies to delay the progression of kidney disorders. Dr. Arhana is dedicated to spreading awareness about kidney health through patient education programmes and community outreach initiatives.
