

DR. NAGAMANI PINDIKURA

Consultant - Obstretician and Gyneacologist

Qualification

MBBS | DNB

Overview

Dr. Nagamani Pindikura is a dedicated OBG specialist in Bangalore. She’s currently practising as a Consultant - Obstetrics & Gynaecology – at Manipal Hospital Doddaballapur, Bangalore, with over seven years of comprehensive clinical and surgical experience. She delivers compassionate, evidence-based care across the full spectrum of women’s health, from adolescent and geriatric gynaecology to high-risk obstetrics and advanced minimally invasive procedures. Dr. Nagamani’s strong academic foundation began with an MBBS from M.S. Ramaiah Medical College, Bangalore, followed by a Diplomate of the National Board in Obstetrics and Gynaecology. Early in her career, she completed a rotatory internship and served in senior house officer and residency roles, which provided invaluable exposure to diverse clinical environments and honed her diagnostic acumen. In her current role, Dr. Nagamani manages a wide range of gynaecological conditions, including menstrual and hormonal disorders, infertility, pelvic inflammatory disease, endometriosis, adenomyosis, and disorders of sexual function. She provides expert care in contraception counselling and adolescent and geriatric gynaecology and addresses

acute gynaecological emergencies. Her obstetric practice encompasses the management of normal and high-risk pregnancies, labour and delivery complications, and postpartum care. She is adept at both medical and surgical termination of pregnancy and skilled in the use of ultrasound, hysterosalpingography, and sonohysterography for precise diagnosis. A proficient surgeon, Dr. Nagamani performs an array of gynaecological operations: total abdominal and vaginal hysterectomy; myomectomy (abdominal and vaginal); anterior and posterior colporrhaphy; perineorrhaphy; interval minilap tubectomy; and laparotomy for ovarian and pelvic pathologies, including ectopic pregnancy. She is equally accomplished in obstetric surgeries, including lower-segment and classical caesarean sections (with or without hysterectomy), forceps and vacuum deliveries, uterine repair for perforation, and management of cervical and perineal tears. Her surgical skillset ensures that patients receive the most appropriate, minimally invasive intervention whenever possible. Dr. Nagamani is fluent in Kannada, Telugu, English, Hindi, and Tamil, allowing her to communicate effectively with patients from diverse backgrounds. She remains committed to lifelong learning, regularly participating in continuing medical education, and to community outreach through free health camps, where she advocates for menstrual hygiene and women’s wellness. Her hands-on teaching style and compassionate bedside manner make her a trusted mentor to junior colleagues and a reassuring partner for her patients.
